(RESOLUTION.)

JUDICIAL DEPARTMENT.

JUDICIAL.

Calcutta, the 31st December 1872.

1. THE Lieutenant-Governor understands that the Calcutta Magistrates submit at present no returns showing the working of their courts, and no annual or other reports. There seems to be no good reason why these officers alone of all judicial officers should be exempted from giving either to Government or to the High Court the information furnished by all other courts, or why their proceedings should not be subject to the same supervision as those of other courts. It appears that the procedure of the Calcutta Magistrates' courts being in an indefinite state, the High Court exercises no executive supervision over them; and pending a complete settlement of the whole question, it is most necessary that their criminal statistics should be submitted to Government for incorporation with the other returns.

2. The Lieutenant-Governor is desirous of having the Calcutta crime returns drawn up as nearly as possible in the shape now in use in the interior. There are, however, at present some difficulties in the way owing to the differences of police procedure and powers. The distinction between offences for which the police may, and those for which they may not, arrest without warrant, is not the same in Calcutta as outside. Since, however, the substantive criminal law, *i.e.*, the Penal Code, is the same in Calcutta as in the Mofussil, the offences may conveniently be classified in the same way as in the interior, the words cognizable and non-cognizable being omitted. Another difference exists in the fact that the Calcutta Magistrates exercise no executive control over the police. They will, however, have no difficulty in filling up the Forms I and II which will be forwarded to them; and the Lieutenant-Governor directs that they be requested to compile returns for the year 1872 in those forms, and to submit them to Government with a report on the administration of their courts of the same character as that now submitted by the Judges of the Court of Small Causes.

3. A copy of the returns of the Magistrates will be sent to the Commissioner of Police, who will in future submit his crime returns in the same forms as those laid down for Commissioners' reports in the interior, leaving blank those columns which cannot be filled up owing to differences in procedure. It is only necessary to note that Column XIV in Statement A1 will show persons discharged by the Commissioner and his Deputy without trial; while all who are discharged or acquitted by the Magistrate after a police officer's or complainant's deposition has been taken in their case will be shown in Column XVI. Any persons summarily discharged by the Magistrates without any deposition having been taken in respect of their case will be entered in Column XIV.

Offg. Secretary to the Govt. of Bengal.

[Third Publication.]

NOTIFICATION.

The 5th December 1872.—The following resolution, constituting the Deputy Commissioner of the Sonthal Pergunnahs a regular district officer, fixing that officer's head-quarters at Doomka, and defining the jurisdiction of the several officers in the Sonthal Pergunnahs, is published for information:—

The Lieutenant-Governor after visiting the Sonthal Pergunnahs and conferring with the Commissioner of the Bhaugulpore division, has considered it necessary to sanction the following changes in the arrangements now existing in that district, the position of which among non-regulation districts has hitherto been somewhat peculiar.

1. The head-quarters of the district of the Sonthal Pergunnahs are now to be established at Doomka. The Deputy Commissioner will reside there, and will assume the proper functions of a district officer: he will also carry on the work of settlement on which he is at present engaged. If possible, arrangements will be made to relieve him of sessions cases beyond the power generally of a Deputy Commissioner of a non-regulation district.

2. All traces of district functions will be taken from the present sub-divisional officers. The head medical officer (now stationed at Deoghur), and other establishments proper to a district head-quarters, will be moved to Doomka.

3. Although the Lieutenant-Governor does not admit that all Sonthal officers should have houses found for them, His Honor will not in the present instance object to a moderate expenditure either for rent or for construction of some additional accommodation at Doomka. He has stopped the rebuilding of the cutcherry at Deoghur. Anything saved from that source, and Rs. 5,000 additional, may be spent to provide accommodation at Doomka. This order will be communicated to the Public Works Department of this Government.

4. The sub-divisions of Pakour and Jamtara will be attached to the head-quarters sub-division of Doomka, except the portion of Jamtara on the railway and bounded on the east by the Adjai, which may be attached to Deoghur. The Lieutenant-Governor also thinks that the south-east corner of Deoghur, which is nearer to Doomka, may be detached and joined to Doomka, the Deoghur thannah being established at Mudhupoora on the railway, with an outpost at Jamtara. One of the Doomka assistants may be from time to time sent out into the Pakour or Jamtara country if it is found advisable, and if required, one or two cheap little bungalows might be put up for that purpose. The corner of Pakour which is on the railway might be attached to Rajmehal.

5. The Deoghur officer should once a week or thereabouts run up to Mudhupoora or Jamtara to try railway cases, &c. He will have, if necessary, one of the new sub-assistants to try petty civil cases, &c., at Deoghur, the European assistant being removed.

6. There will thus be the Doomka or sudder sub-division comprising about all the Sonthal country proper, and there will be three outlying sub-divisions—Deoghur, Godda, and Rajmehal.

7. If a police officer is still required, he may be stationed wherever it is found most convenient. The Commissioner of Bhaugulpore should be requested to report on this point, as well as on the exact limits of the Rajmehal and Deoghur sub-divisions as it is now proposed to retain them.

8. For Doomka, with the sub-districts annexed by this order, the present sub-divisional officer will be somewhat in the position of a Joint-Magistrate, and there will probably be the junior assistants. As the Deputy Commissioner will be much employed on settlement work, the Lieutenant-Governor has no objection to giving the senior assistant the powers of a sub-divisional officer.

9. The Lieutenant-Governor desires that the Commissioner will revise the whole of the subordinate establishments in the Sonthal Pergunnahs. His Honor believes that it will be found that the existing sub-divisions have some establishments, including treasury establishments proper to districts. These are all to be reduced, and the savings used to put the district officer on a proper footing.

10. The Lieutenant-Governor found when visiting the station that there was an unnecessary number of Government buildings at Deoghur, and therefore stopped the new cutcherry. The buildings may now be still further reduced, and the best scheme for arranging all the buildings, &c., to be retained for a small sub-divisional station, should be sent up for His Honor's consideration. The Commissioner should also report what is proposed regarding buildings at Doomka.

11. The Lieutenant-Governor would wish to be informed if in the Commissioner's opinion it is desirable to establish any kind of police posts in any part of the Doomka country. One thannah of Deoghur will be reduced by these arrangements, and if it be thought necessary, one or two small posts might be set up to give information of what is going on in the Sonthal country.

Ordered that a copy of this resolution be forwarded to the Commissioner of Bhaugulpore for information and guidance.

Ordered also that extract (paragraphs 1, 3, 4, and 10) be forwarded to the Secretary to the Public Works Department of this Government, and extract (paragraphs 1 and 2) to the Inspector-General of Hospitals for information and guidance, and that a copy be sent to each of the following officers for information and guidance:—

" " of Hospitals, Indian Medical Department.

The following rules for carrying out the purposes of Part IV of the Road Cess Act, have been approved by the Lieutenant-Governor and are hereby published under section 97 of Act X (B.C.) of 1871 :—

RULES FOR THE VALUATION AND LEVY OF THE HOUSE CESS UNDER PART IV OF THE ROAD CESS ACT.

For the purpose of conducting the valuation and levy of the cess on houses under this part, the Collector should divide his district into conveniently sized blocks, consisting of a sufficient number of thannahs, a thannah being taken as the unit for all purposes under this part.

2. The revenue boundary of a district must be held in regard to Part IV of the Road Cess Act to be the boundary of the Collector's ordinary jurisdiction, and not the area covered by his rent-roll.

3. Where, and to the extent to which sub-divisions exist, advantage should be taken of them in working this part of the Act, and the Sub-Divisional Officer should be vested with the powers of a Collector under the Act, and each sub-division should comprise one or more of the above described blocks.

4. For the villages where there are no *punchayets* appointed under Act XX, 1856, or under the Village Chowkidari Act of 1870, it will be necessary to appoint assessors under section 41. They should be respectable men, of good character, and competent knowledge, ability, and honesty. Such men it is presumed can be obtained on a salary of (say) Rs. 50 a month, with an allowance of (say) Rs. 16 for travelling. Probably an assessor to every two thannahs would suffice for the purposes of valuation, and when the valuation is once completed, one for every four or even more thannahs would be found sufficient for the collection of the cess, which it is to be noted will be payable only in the village in which it is imposed. Where there may be, as is said to be the case in some districts, persons recognized by their fellow villagers as punchayets though not appointed under either of the Acts above quoted, their services may be used for the assessment and levy of this cess, and paid assessors should only be appointed when, notwithstanding the assistance of the different classes of punchayets, the work of assessment is too heavy for the Sub-Divisional Officer or for the Road Cess Deputy Collector to perform.

5. The first duty of the Road Cess Deputy Collector or Sub-Divisional Officer, as the case may be, will be to prepare, under the instructions of the Collector, a list of the villages in each thannah from the thannah books, supplemented as these will have been in most instances by the inquiries now being made in regard to the census.

6. It will not be expedient to harass purely agricultural villages, or those in which the number of houses liable to assessment is not numerous, by making rolls of every house, even for the sake of making sure that two or three artificers or small shop-keepers shall not escape the tax; in such cases it would suffice to make an entry of the village as being "purely agricultural," and no valuation need be made therein.

7. In considerable places of a non-agricultural character, such as may be classified under the head of towns, but where there is no municipal government other than a punchayet (to be entered in the list to be given to assessors), an enumeration for valuation shall be made of all houses except huts clearly not liable to assessment under the Act. For the purposes of the enumeration, all buildings within one homestead shall be deemed to be as one house, whether occupied by one or several members of a family living jointly or separately.

The valuation should be made on all the buildings included in one homestead, according to the amount which would be required to be spent for the construction of similar buildings, deducting therefrom a fair sum for deterioration.

8. After completing his list, the Road Cess Collector or Sub-Divisional Officer shall issue a notice in Form I to the *punchayets* of the villages, where such may exist, under Act XX of 1856, or the Village Chowkidar Act of 1870, and the same to the punchayet recognised by custom. Where there are no *punchayets*, a notice in Form II shall be issued to the assessor to be appointed under paragraph 4 above.

9. The Road Cess Deputy Collector or Sub-Divisional Officer is expected to explain most carefully to the assessor his duties and the instructions contained in the notice, and how to fill up the accompanying valuation roll.

10. Counterfoil books in the annexed form No. V should be kept by each *punchayet* or assessor, showing the receipts of road cess from the persons paying the same.

11. The Road Cess Deputy Collector or Sub-Divisional Officer, on receipt of the copies of the valuation roll, will look them over, and whenever he may have reason to believe, either from the remarks noted therein or from petitions received against the valuation, or from any other cause, that the valuation needs revision, he should take an early opportunity of visiting the spot, or if that be impossible either from press of business or from the numerous instances in which such revision may be necessary, he will, with the Collector's consent, employ in that duty the Superintendent who may be appointed under section 44.

12. The Superintendent should be a man of honesty and of superior qualifications, and should receive for the time during which he is employed a salary at the rate of (say) Rs. 100 and Rs. 25 travelling allowance per mensem.

13. It is expected that in districts where sub-divisions exist, it will be rarely necessary to appoint such an officer; but where that necessity may arise, he should be employed, not only in the revision of the house assessment, when required, of the whole district, but also to assist the Deputy Collector in making valuations under Part II.

14. As soon as the Road Cess Committee may have determined, under section 74, and the Government has notified the rate at which the house cess is to be levied, the Road Cess Deputy Collector or Sub-Divisional Officer shall cause the 9th column of the valuation roll to be filled up accordingly, and shall return the same in duplicate, with a notice to the *punchayets* or the assessors, informing them of the said rate, and directing them to collect the cess payable by each occupier who may be liable to the cess as entered in column 9, and to cause one copy of the second roll to be again published for the information of the assessees in the same manner in which the original valuation roll was published, and to retain the other copy for their own guidance.

15. The valuation having been once completed, the services of the assessors as such can be dispensed with, a sufficient number only being retained for collection of the cess, if indeed it be found necessary to retain any.

16. It is expected that by a proper distribution of agency, and with the assistance of the census papers, the house assessment, and the revision thereof in an entire district, should be completed at the latest within three months from its commencement, and therefore a house assessment should not be undertaken till the Collector is confident that his land valuation will be substantially complete within three months.

17. Where *punchayets* are in existence under either Act XX of 1856 or under the Village Chowkidari Act of 1870, or recognized by custom, the assessment and levy will of course be conducted by them; but it will be the duty of the Cess Collectors to receive their collections from them, and in the villages in which no such *punchayets* may exist, themselves to collect the cess.

18. To interest and encourage the *punchayets* in the discharge of their duty in connection with the house cess, they may be allowed 5 per cent. on the amount they collect.

19. The Cess Collectors should give security in proportion to the amount of collections for which they may be responsible.

20. The Cess Collectors should be furnished with clear and complete instructions, defining the mode of procedure prescribed, and the powers vested in them by sections 46 to 48 for the collection of the cess. They should so arrange their visits to the various villages from which they may have to collect the cess, that after receiving from one village the amount ready to be paid them by the cess-payers and attaching property for arrears of cess remaining due, they may then pass on to other villages for the same purpose, returning to those first visited on the periods fixed for the sale of the attached property.

21. The cess when collected should be paid by the Cess Collectors into the sub-divisional treasury within the jurisdiction of which the villages from which it is collected may be situated, or it may be paid into the nearest thannah when such an arrangement may be found expedient.

22. For all payments on account of this cess the Cess Collector should keep a remittance book in counterfoil, and forward one part with his remittances and retain the other as his voucher.

23. The assessors and superintendents will require no office establishment, though it may be necessary to allow the former, as Cess Collector, a couple of peons each to guard and carry their collections.

24. The slight additional office work which would fall upon the Sub-Divisional Officer could, it is considered, be performed by one of the amlahs on its staff, an equivalent addition to his allowance being made; but if this be not found to work well, a special clerk can, with the sanction of the Collector, be entertained for this purpose. The allowances or salary would be chargeable to the District Road Fund.

(RESOLUTION.)

JUDICIAL DEPARTMENT.

JUDICIAL.

Calcutta, the 1st January 1873.

READ—

The replies of Commissioners to Judicial Circular No. 34, dated 1st July, and reminders.

1. The Lieutenant-Governor has considered the reports of Commissioners and district officers on the powers to be conferred on the officers serving under them and on others under the new Code of Criminal Procedure, and directs special attention to the *Calcutta Gazette* of this day's date, in which are set out the powers which each officer and Honorary Magistrate will exercise. If the name of any officer has been omitted, he will continue to exercise his present powers until further orders, but the fact should be at once reported.

2. It will be seen that the Lieutenant-Governor has nowhere conferred upon any officer powers which the Magistrate of the district can legally bestow, but he has generally vested the senior officers at head-quarter stations under the Magistrate of the district with powers under sections 142, 157, 417, and 521. The power of taking cognizance without complaint of offences suspected to have been committed (section 142) is given to senior officers to be exercised in case of the Magistrate's absence, but should only be used under his special instructions as to who is to use it and who not. Where, as in the 24-Pergunnahs, more than one Magistrate at the same place has this power, the Magistrate of the district should direct which (if any) may exercise it, and the others are not to do so. It will still rest with the Magistrate of the district to confer powers if he chooses under section 141 and other sections. Powers under sections 44 and 266 will only be conferred on special applications for special reason shown. The Lieutenant-Governor has deliberately not given power under section 44 of transferring cases taken up on complaint, because he thinks there has been hitherto far too great disposition to hand parties about from one officer to another. No doubt it is well that complaints should be looked into by competent officers before they are entertained; but on the other hand His Honor is much inclined to think that when all the petitions are taken by one officer he does not sift them properly; and it seems to him that when a complaint is taken by one officer and handed over to another and another, the responsibility for due sifting in the first instance is lost, and cannot be fixed. For the present, then, he thinks it is better that Magistrates of districts should exercise the power of determining what classes of cases each officer may hear within certain local limits, and let these officers take the petitions themselves. The District Magistrates can reserve to themselves any classes of complaints and receive and distribute them. There are some classes of cases, such as defamation, that most Magistrates should not be allowed to entertain. In special cases, if the work thus falling on the District Magistrates is found heavy, or there is special reason for it, the Lieutenant-Governor may give powers under section 44 to one officer at the head-quarter station, but anything of the kind must be exceptional, the necessity being shown after a reasonable distribution of the power of receiving petitions. The Lieutenant-Governor wishes to try this last system for a time, and after sufficient experience if any grave disadvantages are found to attend it, representation may be made. Meantime he expects the superior Magistrates narrowly to scrutinize the proceedings of their subordinates, to look over their registers, and to see what they are about.

3. Under the distribution of work above suggested, it would be most desirable that the proposition several times made should be carried out, viz. that at large stations one court should sit regularly as the police court, and take up at once ordinary police cases as they are sent in by the police. It seems wholly unnecessary that the work should be distributed in driblets, a little to every man who has powers of a Magistrate, as is now too often the case;

it is not necessary to employ all the Magistrates at all times on criminal work. It is better that certain officers should be adequately employed, and the others set free for other work. The Lieutenant-Governor desires that a statement of the distribution of work made may be sent in from each district through the Commissioner; and that it may be stated which is the police court for the whole or any part of the head-quarter divisions with or without exception of any class of cases.

4. It is the wish of the Lieutenant-Governor that Magistrates of districts should themselves dispose of all criminal appeals from the decisions of 2nd and 3rd class Magistrates. It is most important that they should in this way learn to know their subordinates and the results of their criminal administration. Criminal appeals do not generally involve the taking of evidence or very prolonged labour, and a district Magistrate may well dispose of them. Any applications to confer appellate powers under section 266 on any other Magistrate must therefore be very exceptional and very specially supported.

5. The Lieutenant-Governor has not generally thought it desirable to place any other officer than the district Magistrate himself in complete charge of the head-quarter division, but almost all the powers of a sub-divisional officer have been or may be delegated to a senior officer under the Magistrate. The only powers which cannot be so delegated to any other than a sub-divisional officer are those under section 46 (power to pass sentence on proceedings recorded by a subordinate Magistrate) and under section 47 power to withdraw cases: and the Lieutenant-Governor does not know that it is indispensable to give these powers in any case.

6. The Lieutenant-Governor has conferred the powers of summary trial under section 222 very freely in the neighbourhood of Calcutta, where the working of the system will be open to the control of public opinion and under easy supervision. He has also in many cases given these powers to one senior officer in each station besides the District Magistrate, and occasionally to good sub-divisional officers, European and Native, who already exercise first class powers, and whose position, experience, and character, fit them to be so treated. Magistrates of districts will give special attention to the working of this provision of the law.

7. The Lieutenant-Governor is much disappointed to find that several Commissioners and a good many Magistrates have taken very little trouble during the past six months to master the principles of the Code in respect of benches, and to consider how to apply these in their several jurisdictions. Wherever a Commissioner has made any definite proposals, the Lieutenant-Governor has given powers to all the non-official gentlemen named in each district as Honorary Magistrates, and has directed by a notification of this day's date that benches should be formed in the manner there indicated. The way in which the bench system might conveniently be worked may be gathered both from the notification and from the accompanying copy of draft rules under section 52, and His Honor trusts that no time will be lost in the submission of proposals for introducing the system in every district where there are non-official gentlemen of respectable position willing to take part in the administration of justice. Benches for the disposal of municipal work and conservancy cases might very well be introduced in many towns, and the Lieutenant-Governor hopes that the Magistrates will submit proposals to this end without any unnecessary delay.

The rules now forwarded may be adopted with such modifications as local circumstances may necessitate; but a copy of each set of rules proposed must be submitted for the final approval of Government.

8. The Magistrates will, it is hoped, in most instances, be able, from their existing establishments, to spare a clerk or writer for the use of each bench on its days of sitting. Ordinarily the record and judgment should, if possible, be drawn up by the chairman or presiding officer, the briefness of the form in summary cases making this a task of little labor. If any arrangements are needed

in any case under section 230 for a court officer, a report must be made and sanction asked for. Arrangements must also be made for the issue of summons, &c., in cases to be heard by benches. The Superintendent of Stationery will be directed to prepare at once registers under section 227.

9. The Lieutenant-Governor is particularly obliged to Mr. S. C. Bayley, the Commissioner of Patna, who has taken special interest in this question of benches, and proposes to introduce freely the scheme of disposing of cases locally, by directing sub-divisional officers or other salaried Magistrates to ride out and sit periodically with the local Honorary Magistrates for the trial of cases within the competence of a bench so constituted. His Honor would be glad to see this plan tried in other divisions. For the present the Lieutenant-Governor has confined the action of benches in rural places to sittings in which a salaried Magistrate takes part, but provision has been made for the hearing of municipal and conservancy cases and other petty cases by Honorary Magistrates sitting alone in towns, and the Lieutenant-Governor will be prepared to receive propositions for the constitution of such benches in rural districts also, if it is found possible to do so.

10. The Lieutenant-Governor regrets that it should be necessary again to urge upon officers the careful study of the provisions of the Code; but from the proposals received from many districts, it is evident that some of its most salient features have not been grasped. It should not be left for Government to point out that the Magistrate of the district has, as such, both powers of summary trial and authority to regulate in the most particular way the work of his subordinates. His Honor trusts that all officers will strive to make themselves familiar with the Code of Criminal Procedure.

11. All the Honorary Magistrates now shown in the Civil List have been entered in the schedule; but it is believed that several of them may be dead or have left the country. Commissioners are requested to report at once what changes in the List are necessary from these causes.

12. It is desirable that all salaried Magistrates who are fit for 2nd class powers should be vested with them. Inquiries on the subject are being made; the result of pending examination will also be soon known, and a revised List will be shortly published. Any recommendations for alteration of powers or addition to the List or other variation should therefore be made by District Magistrates and Commissioners as soon as possible.

Draft Rules for Benches of Magistrates.

1. THE Bench shall try such cases as its powers enable it to try, and it is authorized to try within the local limits following, or such particular cases as are made over to it by the Magistrate of the district or any Magistrate empowered to make over cases. It can only entertain of its own motion such complaints as the Magistrate of the district may authorize it to entertain both in respect of local limit and classes of cases.

[*Here enter Local Limits.*]

The Magistrate of the district or division may empower any single member of a Bench or any salaried Magistrates to receive complaints of cases triable by the Bench, and to issue the necessary processes for bringing the accused and the witnesses before the Bench at its regular sittings.

2. The Bench shall sit at the place and on the dates mentioned below. The Honorary Magistrates will sit in the rotation arranged by the Magistrate of the district or division, but any Magistrate not named may sit, unless the Magistrate of the district or division otherwise directs.

[*Here enter place and ordinary dates of sitting.*]

3. The Bench may hold one or more adjourned sittings if this be found necessary for the disposal of business or of part-heard cases; but it shall be open to the Bench at the close of its regular sitting either to refer unheard cases back to the Magistrate under whose order of reference they received them, or to postpone them to next Bench day, as may seem most convenient.

4. The Chairman of the Bench for the time being shall be the Magistrate of highest powers present at a sitting. Where all present are of equal powers, the Bench may elect its own Chairman, provided always that it shall be in the discretion of the Magistrate of the district to appoint the Chairman for each time of sitting or generally.

5. The Chairman shall conduct the proceedings of the court and exercise all the functions in that behalf usually exercised by a Magistrate when sitting alone. He shall decide upon the admissibility of evidence and maintain order in the court; but it shall be open to any member of the Bench to put any question to the witnesses, either direct or through the Chairman as the latter may deem advisable, and to suggest any matter for the Chairman's consideration.

6. Each member of the Bench shall have a voice in the finding and sentence. In a Bench of three or other uneven numbers the opinion of the majority shall prevail. When the numbers are even, the Chairman shall have a casting vote.

7. Any recording of evidence or other function exercisable by the Chairman may, with his consent, be exercised by any one of his colleagues.

8. Any part-heard case postponed to a further sitting of the Bench may be proceeded with if any member of the Bench has been present at the previous hearing in the case, but subject to the provisions of section 328 of the Code.

9. The Bench may refer any point of law for the opinion of the Magistrate of the district or division, or of any first-class Magistrate appointed by the Magistrate of the district for that purpose, and the Magistrate may certify his opinion thereon.

10. When any person is convicted by the casting vote of the Chairman, the Chairman shall then and there ask him if he wishes to appeal, and if he desires to do, shall forthwith record his appeal in brief and forward the case to the Magistrate, intimating to the person convicted that he may file any grounds of appeal he pleases.

(RESOLUTION.)

JUDICIAL DEPARTMENT.

JUDICIAL.

Calcutta, the 31st December 1872.

1. THE Lieutenant-Governor understands that the Calcutta Magistrates submit at present no returns showing the working of their courts, and no annual or other reports. There seems to be no good reason why these officers alone of all judicial officers should be exempted from giving either to Government or to the High Court the information furnished by all other courts, or why their proceedings should not be subject to the same supervision as those of other courts. It appears that the procedure of the Calcutta Magistrates' courts being in an indefinite state, the High Court exercises no executive supervision over them; and pending a complete settlement of the whole question, it is most necessary that their criminal statistics should be submitted to Government for incorporation with the other returns.

2. The Lieutenant-Governor is desirous of having the Calcutta crime returns drawn up as nearly as possible in the shape now in use in the interior. There are, however, at present some difficulties in the way owing to the differences of police procedure and powers. The distinction between offences for which the police may, and those for which they may not, arrest without warrant, is not the same in Calcutta as outside. Since, however, the substantive criminal law, *i.e.*, the Penal Code, is the same in Calcutta as in the Mofussil, the offences may conveniently be classified in the same way as in the interior, the words cognizable and non-cognizable being omitted. Another difference exists in the fact that the Calcutta Magistrates exercise no executive control over the police. They will, however, have no difficulty in filling up the Forms I. and II. which will be forwarded to them; and the Lieutenant-Governor directs that they be requested to compile returns for the year 1872 in those forms, and to submit them to Government with a report on the administration of their courts of the same character as that now submitted by the Judges of the Court of Small Causes.

3. A copy of the returns of the Magistrates will be sent to the Commissioner of Police, who will in future submit his crime returns in the same forms as those laid down for Commissioners' reports in the interior, leaving blank those columns which cannot be filled up owing to differences in procedure. It is only necessary to note that Column XIV. in Statement A1 will show persons discharged by the Commissioner and his Deputy without trial; while all who are discharged or acquitted by the Magistrate after a police officer's or complainant's deposition has been taken in their case will be shown in Column XVI. Any persons summarily discharged by the Magistrates without any deposition having been taken in respect of their case will be entered in Column XIV.

Offg. Secretary to the Govt. of Bengal.

The following orders, issued by the Government of India in the Financial Department, are republished for general information :—

No. 210.—*Fort William, the* 9*th January* 1873.—*Leave and Allowances.*—The Governor-General in Council directs that the following words be added after the words "or on leave on private affairs" in Section 13 of Supplement F to the Civil Leave Code—"or on furlough."

PENSIONS AND GRATUITIES.

Fort William, the 9*th January* 1873.

No. 150.—The Governor-General in Council is pleased to direct that Section 89 of the Civil Pension Code be cancelled.

Section 88 will henceforth apply to all pensions undrawn for more than six months, for however long a period.

No. 169.—*The* 10*th January* 1873.—The following correspondence is published for general information :—

Letter from the Government of India in the Financial Department, to Her Majesty's Secretary of State for India,—No. 192, *dated* 10*th June* 1872.

By Section 41 of the Civil Pension Code, Uncovenanted Servants generally are prevented from counting the period of their absence on leave other than privilege or preparatory leave as service qualifying for pension. We have the honor to solicit that an exception to this rule may be made in favour of the classes of Uncovenanted Officers described in Section 1 (*b*) of the Civil Leave Code.

2. The Officers referred to have, in accordance with the instructions contained in your Grace's Financial despatch No. 451 of the 6th December 1871, and previous correspondence on the subject, been placed on nearly the same footing as Covenanted Civil Servants in regard to furlough. It is manifestly inconsistent with such a concession not to allow any period of absence on furlough to count as service qualifying for pension, not only because such a prohibition is at variance with the rule on the same point for Covenanted Civil Servants, but because it nullifies the privilege of taking additional furlough for most of the Uncovenanted Officers to whom that privilege has been conceded.

3. For this reason, as well as on the ground that Covenanted Civil Servants are allowed to include four years' absence on furlough or special leave in the twenty-five years' service which qualifies for the maximum annuity, and that Officers of the Army are allowed to count absence on furlough for four years in thirty as service qualifying for pension, we are of opinion that Uncovenanted Officers of the classes referred to above should be allowed to reckon four years of absence on furlough, or special leave with allowances, as service qualifying for pension or gratuity. We consider, however, that the four years should be a maximum limit, and that the period of absence on leave which each Officer may actually count as qualifying for pension or gratuity at any particular period of his service, should bear a fixed proportion to the whole of his qualifying service. The rule, therefore, which we propose to lay down is as follows :—An Uncovenanted Officer of one of the classes described in Section 1 (*b*) of the Civil Leave Code may reckon four years of absence on furlough or special leave with allowances as service qualifying for pension or gratuity, provided that the period of absence so reckoned shall not exceed two-fifteenths of his entire qualifying service.

Letter from Her Majesty's Secretary of State for India, to the Government of India in the Financial Department,—No. 477, *dated* 12*th November* 1872.

I have considered in Council your Financial letter dated the 10th June last, No. 192, referring to Section 41 of the Civil Pension Code, whereby Uncovenanted Servants are precluded from counting the period of their absence on leave, other than privilege or preparatory leave, as service qualifying for pension, and requesting that an exception to this rule may be made in favour of the classes of Uncovenanted Officers described in Section 1 (*b*) of the Civil Leave Code.

2. You state that the Officers referred to have, in accordance with the instructions contained in my Financial despatch of the 6th December 1871, No. 451, and previous correspondence, been placed on nearly the same footing as Covenanted Civil Servants in regard to furlough, and that it is manifestly inconsistent with such a concession not to allow any period of absence on furlough to count as service qualifying for pension, not only because such a prohibition is at variance with the rule on the same point for Covenanted Civil Servants, but because it nullifies the privilege of taking additional furlough for most of the Uncovenanted Officers to whom that privilege has been conceded.

3. I cannot, however, admit the soundness of the views which you have taken. I consider that questions relating to the grant of pensions to Covenanted or Uncovenanted Officers on furlough should be dealt with on a general review of the whole subject. The inconvenience of any partial change is apparent on examination of the effect of your proposition, for in comparison with the advantages enjoyed by Covenanted Civil Servants, your proposition, if acceded to, would admit of the grant to Educational Officers, after certain periods of service, of higher rates of pension than those allowed to Covenanted Civil Servants.

4. When the Uncovenanted Pension Rules were revised in the year 1863-64, the question as to any portion of leave being allowed to reckon therein, was fully considered, and I see no reason to make a change in the rules as then sanctioned.

The 24*th December* 1872.—The following despatch from Her Majesty's Secretary of State for India, confirming the Lieutenant-Governor's Resolution, published at page 288 of the *Calcutta Gazette* of 24th July 1872, for the substitution of an Additional Judge for a Judge in the District of Beerbhoom, and for using the saving to raise the pay of two First Class Magistrates and Collectors, is published for general information :—

No. 354, India Office, London, the 31st August 1872.

From—His Grace the DUKE of ARGYLL, K.T., Her Majesty's Secretary of State for India.

To—His Excellency the Right Hon'ble the Governor-General of India in Council.

2. The orders issued by you in regard to the arrangements contemplated by the Lieutenant-Governor of Bengal for the prevention of too frequent changes in the officers in charge of districts in that province, have my approval.

[Third Publication.]

The following rules for carrying out the purposes of Part IV of the Road Cess Act, have been approved by the Lieutenant-Governor and are hereby published under section 97 of Act X (B.C.) of 1871 :—

RULES FOR THE VALUATION AND LEVY OF THE HOUSE CESS UNDER PART IV OF THE ROAD CESS ACT.

FOR the purpose of conducting the valuation and levy of the cess on houses under this part, the Collector should divide his district into conveniently sized blocks, consisting of a sufficient number of thannahs, a thannah being taken as the unit for all purposes under this part.

2. The revenue boundary of a district must be held in regard to Part IV of the Road Cess Act to be the boundary of the Collector's ordinary jurisdiction, and not the area covered by his rent-roll.

3. Where, and to the extent to which sub-divisions exist, advantage should be taken of them in working this part of the Act, and the Sub-Divisional Officer should be vested with the powers of a Collector under the Act, and each sub-division should comprise one or more of the above described blocks.

4. For the villages where there are no *punchayets* appointed under Act XX, 1856, or under the Village Chowkidari Act of 1870, it will be necessary to appoint assessors under section 41. They should be respectable men, of good character, and competent knowledge, ability, and honesty. Such men it is presumed can be obtained on a salary of (say) Rs. 50 a month, with an allowance of (say) Rs. 16 for travelling. Probably an assessor to every two thannahs would suffice for the purposes of valuation, and when the valuation is once completed, one for every four or even more thannahs would be found sufficient for the collection of the cess, which it is to be noted will be payable only in the village in which it is imposed. Where there may be, as is said to be the case in some districts, persons recognized by their fellow villagers as punchayets though not appointed under either of the Acts above quoted, their services may be used for the assessment and levy of this cess, and paid assessors should only be appointed when, notwithstanding the assistance of the different classes of punchayets, the work of assessment is too heavy for the Sub-Divisional Officer or for the Road Cess Deputy Collector to perform.

5. The first duty of the Road Cess Deputy Collector or Sub-Divisional Officer, as the case may be, will be to prepare, under the instructions of the Collector, a list of the villages in each thannah from the thannah books, supplemented as these will have been in most instances by the inquiries now being made in regard to the census.

6. It will not be expedient to harass purely agricultural villages, or those in which the number of houses liable to assessment is not numerous, by making rolls of every house, even for the sake of making sure that two or three artificers or small shop-keepers shall not escape the tax; in such cases it would suffice to make an entry of the village as being "purely agricultural," and no valuation need be made therein.

7. In considerable places of a non-agricultural character, such as may be classified under the head of towns, but where there is no municipal government other than a punchayet (to be entered in the list to be given to assessors), an enumeration for valuation shall be made of all houses except huts clearly not liable to assessment under the Act. For the purposes of the enumeration, all buildings within one homestead shall be deemed to be as one house, whether occupied by one or several members of a family living jointly or separately.

The valuation should be made on all the buildings included in one homestead, according to the amount which would be required to be spent for the construction of similar buildings, deducting therefrom a fair sum for deterioration.

8. After completing his list, the Road Cess Collector or Sub-Divisional Officer shall issue a notice in Form I to the *punchayets* of the villages, where such may exist, under Act XX of 1856, or the Village Chowkidar iAct of 1870, and the same to the punchayet recognised by custom. Where there are no *punchayets*, a notice in Form II shall be issued to the assessor to be appointed under paragraph 4 above.

9. The Road Cess Deputy Collector or Sub-Divisional Officer is expected to explain most carefully to the assessor his duties and the instructions contained in the notice, and how to fill up the accompanying valuation roll.

10. Counterfoil books in the annexed form No. V should be kept by each *punchayet* or assessor, showing the receipts of road cess from the persons paying the same.

11. The Road Cess Deputy Collector or Sub-Divisional Officer, on receipt of the copies of the valuation roll, will look them over, and whenever he may have reason to believe, either from the remarks noted therein or from petitions received against the valuation, or from any other cause, that the valuation needs revision, he should take an early opportunity of visiting the spot, or if that be impossible either from press of business or from the numerous instances in which such revision may be necessary, he will, with the Collector's consent, employ in that duty the Superintendent who may be appointed under section 44.

12. The Superintendent should be a man of honesty and of superior qualifications, and should receive for the time during which he is employed a salary at the rate of (say) Rs. 100 and Rs. 25 travelling allowance per mensem.

13. It is expected that in districts where sub-divisions exist, it will be rarely necessary to appoint such an officer; but where that necessity may arise, he should be employed, not only in the revision of the house assessment, when required, of the whole district, but also to assist the Deputy Collector in making valuations under Part II.

14. As soon as the Road Cess Committee may have determined, under section 74, and the Government has notified the rate at which the house cess is to be levied, the Road Cess Deputy Collector or Sub-Divisional Officer shall cause the 9th column of the valuation roll to be filled up accordingly, and shall return the same in duplicate, with a notice to the *punchayets* or the assessors, informing them of the said rate, and directing them to collect the cess payable by each occupier who may be liable to the cess as entered in column 9, and to cause one copy of the second roll to be again published for the information of the assessees in the same manner in which the original valuation roll was published, and to retain the other copy for their own guidance.

15. The valuation having been once completed, the services of the assessors as such can be dispensed with, a sufficient number only being retained for collection of the cess, if indeed it be found necessary to retain any.

16. It is expected that by a proper distribution of agency, and with the assistance of the census papers, the house assessment, and the revision thereof in an entire district, should be completed at the latest within three months from its commencement, and therefore a house assessment should not be undertaken till the Collector is confident that his land valuation will be substantially complete within three months.

17. Where *punchayets* are in existence under either Act XX of 1856 or under the Village Chowkidari Act of 1870, or recognized by custom, the assessment and levy will of course be conducted by them; but it will be the duty of the Cess Collectors to receive their collections from them, and in the villages in which no such *punchayets* may exist, themselves to collect the cess.

18. To interest and encourage the *punchayets* in the discharge of their duty in connection with the house cess, they may be allowed 5 per cent. on the amount they collect.

19. The Cess Collectors should give security in proportion to the amount of collections for which they may be responsible.

20. The Cess Collectors should be furnished with clear and complete instructions, defining the mode of procedure prescribed, and the powers vested in them by sections 46 to 48 for the collection of the cess. They should so arrange their visits to the various villages from which they may have to collect the cess, that after receiving from one village the amount ready to be paid them by the cess-payers and attaching property for arrears of cess remaining due, they may then pass on to other villages for the same purpose, returning to those first visited on the periods fixed for the sale of the attached property.

21. The cess when collected should be paid by the Cess Collectors into the sub-divisional treasury within the jurisdiction of which the villages from which it is collected may be situated, or it may be paid into the nearest thannah when such an arrangement may be found expedient.

22. For all payments on account of this cess the Cess Collector should keep a remittance book in counterfoil, and forward one part with his remittances and retain the other as his voucher.

23. The assessors and superintendents will require no office establishment, though it may be necessary to allow the former, as Cess Collector, a couple of peons each to guard and carry their collections.

24. The slight additional office work which would fall upon the Sub-Divisional Officer could, it is considered, be performed by one of the amlahs on its staff, an equivalent addition to his allowance being made; but if this be not found to work well, a special clerk can, with the sanction of the Collector, be entertained for this purpose. The allowances or salary would be chargeable to the District Road Fund.

(RESOLUTION.)

JUDICIAL DEPARTMENT.

JUDICIAL.

Calcutta, the 31st December 1872.

1. THE Lieutenant-Governor understands that the Calcutta Magistrates submit at present no returns showing the working of their courts, and no annual or other reports. There seems to be no good reason why these officers alone of all judicial officers should be exempted from giving either to Government or to the High Court the information furnished by all other courts, or why their proceedings should not be subject to the same supervision as those of other courts. It appears that the procedure of the Calcutta Magistrates' courts being in an indefinite state, the High Court exercises no executive supervision over them; and pending a complete settlement of the whole question, it is most necessary that their criminal statistics should be submitted to Government for incorporation with the other returns.

2. The Lieutenant-Governor is desirous of having the Calcutta crime returns drawn up as nearly as possible in the shape now in use in the interior. There are, however, at present some difficulties in the way owing to the differences of police procedure and powers. The distinction between offences for which the police may, and those for which they may not, arrest without warrant, is not the same in Calcutta as outside. Since, however, the substantive criminal law, *i.e.*, the Penal Code, is the same in Calcutta as in the Mofussil, the offences may conveniently be classified in the same way as in the interior, the words cognizable and non-cognizable being omitted. Another difference exists in the fact that the Calcutta Magistrates exercise no executive control over the police. They will, however, have no difficulty in filling up the Forms I and II which will be forwarded to them; and the Lieutenant-Governor directs that they be requested to compile returns for the year 1872 in those forms, and to submit them to Government with a report on the administration of their courts of the same character as that now submitted by the Judges of the Court of Small Causes.

3. A copy of the returns of the Magistrates will be sent to the Commissioner of Police, who will in future submit his crime returns in the same forms as those laid down for Commissioners' reports in the interior, leaving blank those columns which cannot be filled up owing to differences in procedure. It is only necessary to note that Column XIV in Statement A1 will show persons discharged by the Commissioner and his Deputy without trial; while all who are discharged or acquitted by the Magistrate after a police officer's or complainant's deposition has been taken in their case will be shown in Column XVI. Any persons summarily discharged by the Magistrates without any deposition having been taken in respect of their case will be entered in Column XIV.

(RESOLUTION.)

JUDICIAL DEPARTMENT.

JUDICIAL.

Calcutta, the 1st January 1873.

READ—

The replies of Commissioners to Judicial Circular No. 84, dated 1st July, and reminders.

1. The Lieutenant-Governor has considered the reports of Commissioners and district officers on the powers to be conferred on the officers serving under them and on others under the new Code of Criminal Procedure, and directs special attention to the *Calcutta Gazette* of this day's date, in which are set out the powers which each officer and Honorary Magistrate will exercise. If the name of any officer has been omitted, he will continue to exercise his present powers until further orders, but the fact should be at once reported.

2. It will be seen that the Lieutenant-Governor has nowhere conferred upon any officer powers which the Magistrate of the district can legally bestow, but he has generally vested the senior officers at head-quarter stations under the Magistrate of the district with powers under sections 142, 157, 417, and 521. The power of taking cognizance without complaint of offences suspected to have been committed (section 142) is given to senior officers to be exercised in case of the Magistrate's absence, but should only be used under his special instructions as to who is to use it and who not. Where, as in the 24-Pergunnahs, more than one Magistrate at the same place has this power, the Magistrate of the district should direct which (if any) may exercise it, and the others are not to do so. It will still rest with the Magistrate of the district to confer powers if he chooses under section 141 and other sections. Powers under sections 44 and 206 will only be conferred on special applications for special reason shown. The Lieutenant-Governor has deliberately not given power under section 44 of transferring cases taken up on complaint, because he thinks there has been hitherto far too great disposition to hand parties about from one officer to another. No doubt it is well that complaints should be looked into by competent officers before they are entertained; but on the other hand His Honor is much inclined to think that when all the petitions are taken by one officer he does not sift them properly; and it seems to him that when a complaint is taken by one officer and handed over to another and another, the responsibility for due sifting in the first instance is lost, and cannot be fixed. For the present, then, he thinks it is better that Magistrates of districts should exercise the power of determining what classes of cases each officer may hear within certain local limits, and let these officers take the petitions themselves. The District Magistrates can reserve to themselves any classes of complaints and receive and distribute them. There are some classes of cases, such as defamation, that most Magistrates should not be allowed to entertain. In special cases, if the work thus falling on the District Magistrates is found heavy, or there is special reason for it, the Lieutenant-Governor may give powers under section 44 to one officer at the head-quarter station, but anything of the kind must be exceptional, the necessity being shown after a reasonable distribution of the power of receiving petitions. The Lieutenant-Governor wishes to try this last system for a time, and after sufficient experience if any grave disadvantages are found to attend it, representation may be made. Meantime he expects the superior Magistrates narrowly to scrutinize the proceedings of their subordinates, to look over their registers, and to see what they are about.

3 Under the distribution of work above suggested, it would be most desirable that the proposition several times made should be carried out, viz. that at large stations one court should sit regularly as the police court, and take up at once ordinary police cases as they are sent in by the police. It seems wholly unnecessary that the work should be distributed in driblets, a little to every man who has powers of a Magistrate, as is now too often the case;

it is not necessary to employ all the Magistrates at all times on criminal work. It is better that certain officers should be adequately employed, and the others set free for other work. The Lieutenant-Governor desires that a statement of the distribution of work made may be sent in from each district through the Commissioner; and that it may be stated which is the police court for the whole or any part of the head-quarter divisions with or without exception of any class of cases.

4. It is the wish of the Lieutenant-Governor that Magistrates of districts should themselves dispose of all criminal appeals from the decisions of 2nd and 3rd class Magistrates. It is most important that they should in this way learn to know their subordinates and the results of their criminal administration. Criminal appeals do not generally involve the taking of evidence or very prolonged labour, and a district Magistrate may well dispose of them. Any applications to confer appellate powers under section 266 on any other Magistrate must therefore be very exceptional and very specially supported.

5. The Lieutenant-Governor has not generally thought it desirable to place any other officer than the district Magistrate himself in complete charge of the head-quarter division, but almost all the powers of a sub-divisional officer have been or may be delegated to a senior officer under the Magistrate. The only powers which cannot be so delegated to any other than a sub-divisional officer are those under section 46 (power to pass sentence on proceedings recorded by a subordinate Magistrate) and under section 47 power to withdraw cases: and the Lieutenant-Governor does not know that it is indispensable to give these powers in any case.

6. The Lieutenant-Governor has conferred the powers of summary trial under section 222 very freely in the neighbourhood of Calcutta, where the working of the system will be open to the control of public opinion and under easy supervision. He has also in many cases given these powers to one senior officer in each station besides the District Magistrate, and occasionally to good sub-divisional officers, European and Native, who already exercise first class powers, and whose position, experience, and character, fit them to be so treated. Magistrates of districts will give special attention to the working of this provision of the law.

7. The Lieutenant-Governor is much disappointed to find that several Commissioners and a good many Magistrates have taken very little trouble during the past six months to master the principles of the Code in respect of benches, and to consider how to apply these in their several jurisdictions. Wherever a Commissioner has made any definite proposals, the Lieutenant-Governor has given powers to all the non-official gentlemen named in each district as Honorary Magistrates, and has directed by a notification of this day's date that benches should be formed in the manner there indicated. The way in which the bench system might conveniently be worked may be gathered both from the notification and from the accompanying copy of draft rules under section 52, and His Honor trusts that no time will be lost in the submission of proposals for introducing the system in every district where there are non-official gentlemen of respectable position willing to take part in the administration of justice. Benches for the disposal of municipal work and conservancy cases might very well be introduced in many towns, and the Lieutenant-Governor hopes that the Magistrates will submit proposals to this end without any unnecessary delay.

The rules now forwarded may be adopted with such modifications as local circumstances may necessitate; but a copy of each set of rules proposed must be submitted for the final approval of Government.

8. The Magistrates will, it is hoped, in most instances, be able, from their existing establishments, to spare a clerk or writer for the use of each bench on its days of sitting. Ordinarily the record and judgment should, if possible, be drawn up by the chairman or presiding officer, the briefness of the form in summary cases making this a task of little labor. If any arrangements are needed

in any case under section 230 for a court officer, a report must be made and sanction asked for. Arrangements must also be made for the issue of summons, &c., in cases to be heard by benches. The Superintendent of Stationery will be directed to prepare at once registers under section 227.

9. The Lieutenant-Governor is particularly obliged to Mr. S. C. Bayley, the Commissioner of Patna, who has taken special interest in this question of benches, and proposes to introduce freely the scheme of disposing of cases locally, by directing sub-divisional officers or other salaried Magistrates to ride out and sit periodically with the local Honorary Magistrates for the trial of cases within the competence of a bench so constituted. His Honor would be glad to see this plan tried in other divisions. For the present the Lieutenant-Governor has confined the action of benches in rural places to sittings in which a salaried Magistrate takes part, but provision has been made for the hearing of municipal and conservancy cases and other petty cases by Honorary Magistrates sitting alone in towns, and the Lieutenant-Governor will be prepared to receive propositions for the constitution of such benches in rural districts also, if it is found possible to do so.

10. The Lieutenant-Governor regrets that it should be necessary again to urge upon officers the careful study of the provisions of the Code; but from the proposals received from many districts, it is evident that some of its most salient features have not been grasped. It should not be left for Government to point out that the Magistrate of the district has, as such, both powers of summary trial and authority to regulate in the most particular way the work of his subordinates His Honor trusts that all officers will strive to make themselves familiar with the Code of Criminal Procedure.

11. All the Honorary Magistrates now shown in the Civil List have been entered in the schedule; but it is believed that several of them may be dead or have left the country. Commissioners are requested to report at once what changes in the List are necessary from these causes.

12. It is desirable that all salaried Magistrates who are fit for 2nd class powers should be vested with them. Inquiries on the subject are being made; the result of pending examination will also be soon known, and a revised List will be shortly published. Any recommendations for alteration of powers or addition to the List or other variation should therefore be made by District Magistrates and Commissioners as soon as possible.

Draft Rules for Benches of Magistrates.

1. THE Bench shall try such cases as its powers enable it to try, and it is authorized to try within the local limits following, or such particular cases as are made over to it by the Magistrate of the district or any Magistrate empowered to make over cases. It can only entertain of its own motion such complaints as the Magistrate of the district may authorize it to entertain both in respect of local limit and classes of cases.

[*Here enter Local Limits.*]

The Magistrate of the district or division may empower any single member of a Bench or any salaried Magistrates to receive complaints of cases triable by the Bench, and to issue the necessary processes for bringing the accused and the witnesses before the Bench at its regular sittings.

2. The Bench shall sit at the place and on the dates mentioned below. The Honorary Magistrates will sit in the rotation arranged by the Magistrate of the district or division, but any Magistrate not named may sit, unless the Magistrate of the district or division otherwise directs.

[*Here enter place and ordinary dates of sitting.*]

3. The Bench may hold one or more adjourned sittings if this be found necessary for the disposal of business or of part-heard cases; but it shall be open to the Bench at the close of its regular sitting either to refer unheard cases back to the Magistrate under whose order of reference they received them, or to postpone them to next Bench day, as may seem most convenient.

4. The Chairman of the Bench for the time being shall be the Magistrate of highest powers present at a sitting. Where all present are of equal powers, the Bench may elect its own Chairman, provided always that it shall be in the discretion of the Magistrate of the district to appoint the Chairman for each time of sitting or generally.

5. The Chairman shall conduct the proceedings of the court and exercise all the functions in that behalf usually exercised by a Magistrate when sitting alone. He shall decide upon the admissibility of evidence and maintain order in the court; but it shall be open to any member of the Bench to put any question to the witnesses, either direct or through the Chairman as the latter may deem advisable, and to suggest any matter for the Chairman's consideration.

6. Each member of the Bench shall have a voice in the finding and sentence. In a Bench of three or other uneven numbers the opinion of the majority shall prevail. When the numbers are even, the Chairman shall have a casting vote.

7. Any recording of evidence or other function exercisable by the Chairman may, with his consent, be exercised by any one of his colleagues.

8. Any part-heard case postponed to a further sitting of the Bench may be proceeded with if any member of the Bench has been present at the previous hearing in the case, but subject to the provisions of section 328 of the Code.

9. The Bench may refer any point of law for the opinion of the Magistrate of the district or division, or of any first-class Magistrate appointed by the Magistrate of the district for that purpose, and the Magistrate may certify his opinion thereon.

10. When any person is convicted by the casting vote of the Chairman, the Chairman shall then and there ask him if he wishes to appeal, and if he desires to do, shall forthwith record his appeal in brief and forward the case to the Magistrate, intimating to the person convicted that he may file any grounds of appeal he pleases.

MINOR DEPARTMENTS.—Curator of the Indian Museum.

No. 335.—*The 16th January* 1873.—*Pensions and Gratuities.*—The Governor-General in Council directs that Section 62 (*c*) of the Civil Pension Code be corrected as follows:—

(*c*.) After eleven years and six months' such service a retiring pension of £750 a year.

No. 372.—The following Financial Despatch from Her Majesty's Secretary of State for India, to the Government of India, No. 513, dated 4th December 1872, is published for general information:—

I have considered in Council your Financial Letter, dated the 26th September last, No. 359, forwarding papers relating to a request by * * * that on resigning Civil employment and accepting the Military pension to which he is entitled, he may be re-appointed to be a Deputy Commissioner of the grade in which he at present serves.

2. In reference to this case you state that in the Financial Despatch dated the 9th July 1868, No. 290, "the following rule was laid down":—
"When an officer, who has retired on a pension obtained, not on medical certificate, but after a prescribed period of service, is subsequently employed in any public capacity, he shall be permitted to draw the pension in addition to th salary of the office to which he may be appointed; but in the event of a Military Officer resigning the service after he has been appointed to a Civil office, he must at the same time vacate that office. He may, however, be re-appointed to the office, not as a matter of course, but only in the event of your considering it decidedly for the benefit of the public service."

3. You also state that the principle of that rule, which was at first applicable to Commissioned Military Officers in Civil employ, has been extended to all Civil Officers, and that Section 98 of the Civil Pension Code provides that "no officer can be permitted to retire with the view of being re-employed, whether in the general service or on the charge of local funds, and drawing pension in addition to pay," and you propose that that rule should now be extended to Military Officers in Civil employ.

4. Previous to the receipt by you of the Financial Despatch, dated the 9th July 1868, No. 290, it was the invariable rule that a Military pension should merge in Civil salary, and it was only on "your strong recommendation" that any modification of that rule was authorized.

5. Under the terms of the modification sanctioned in 1868, you have full power to guard against the abuse of the concession granted by declining to re-appoint any officer to a Civil appointment who may resign the service for the purpose of obtaining Military pension in addition to Civil salary, and I am of opinion that you should do so, except under exceptional circumstances, when it is decidedly for the benefit of the public service. I see no objection, however, to your proposition to extend to Military Officers in Civil employ the rule on the subject which you have laid down as regards Civil Officers.

6. * * * request should accordingly be negatived.

No. 274.—The 14th January 1873.—*Separate Revenue.—Opium.*—The following comparative estimate of Opium Revenue to date, compared with the estimate for the year 1872-73, is substituted for that published in Financial Department Notification No. 109, dated 10th January 1873 :—

* Instead of 44,175 chests, as originally estimated, the quantity sold in 1872-73 will be (as already advertised), in consequence of the failure of the crop, only 42,675 chests. The average price of a chest was estimated originally at Rs. 1,200. It must now be Rs. 1,242, if the whole estimate is to be made good. The figures here shown as "estimates" are adjusted accordingly.

The following order, issued by the Government of India in the Military Department, is republished for general information :—

No. 326, dated 21st January 1873.

THE following statement showing the result of the provincial finance during the first six months of the current year, is published for general information.

The explanations of discrepancies between the results of the last half-year and of the corresponding half-year of the preceding year are as follows :—

Receipt side.—The increase of Rs. 1,86,000 under "imperial allotment" is due to the creation of additional provincial services for which allotments of imperial money had to be made, and to the special grant of one lakh for expenditure in the Burdwan fever tract. The decrease of Rs. 7,43,000 under "provincial rates and taxes" is due to the income from district road and ferry tolls having been made over finally to "local funds," under which head they now appear; to the income from canal and river tolls being shown as receipts of the "Public Works Department;" and to the "cattle-trespass fees" being shown under "miscellaneous." The heading "provincial rates and taxes" is blank, because no rate or tax has been imposed for provincial purposes since the decentralization scheme first came into effect. The increased receipts under "jails" are due to the successful sale of jail manufactures. The increase under "registration" is partly due to the increased number of registration offices, and the increased accessibility of registrars. The decrease under "police" is due in part to an error whereby wages of certain municipal police were wrongly credited as provincial receipts.

The increase under "miscellaneous" is due to the transfer of "cattle trespass fees" from "provincial rates and taxes" as already explained. The "public works" increase represents the tolls on provincial canals and roads.

The great increase of 14½ lakhs under "local funds" is due in part to the transfer of ferry tolls income to "local funds;" and 9 lakhs of the increase is due to the grant of the sum from the provincial balances to the several district committees.

Charges side.—The decrease of Rs. 92,000 under "provincial and local rates and taxes" is due to the transfer of the cattle pound charges to "miscellaneous." The small increase under jails is partly due to the cost of improved administration and partly to the larger outlay on manufacturing materials. The decrease of Rs. 1,19,000 under "police" is said to be due to the reduced cost of the executive police force. The increase of Rs. 52,000 under the head of "medical" is mainly due to the large expenditure on hospitals and dispensaries in the fever-stricken tracts of Burdwan. The large increase of Rs. 9,87,000 under "miscellaneous" is due to the grant of nine lakhs from provincial funds to the several district committees. The small increase of Rs. 52,000 in the "public works" expenditure needs no explanation. The increase of Rs. 54,000 under "office rents and taxes" is due to the transfer to the provincial budget of the taxes on public buildings which used in the preceding year to be defrayed from the Imperial budget. The increased expenditure under "local funds" is in consequence of the much larger grants which the Lieutenant-Governor has been able to make to district committees for the work of the current year.

It is to be noted that the totals on both sides of the account are somewhat swelled by the grants from provincial funds to district committees appearing twice. Thus on the "*receipts*" side nine lakhs appears as provincial receipts or balance in hand, and again appears as "local fund receipts;" on the "*charges*" the nine lakhs appears as expenditure under provincial "miscellaneous," and a part of it already appears also as expenditure under "local funds."

No. 326, dated 21st January 1873

THE following statement showing the result of the provincial finance during the first six months of the current year, is published for general information.

The explanations of discrepancies between the results of the last half-year and of the corresponding half-year of the preceding year are as follows:—

Receipt side.—The increase of Rs. 1,86,000 under "imperial allotment" is due to the creation of additional provincial services for which allotments of imperial money had to be made, and to the special grant of one lakh for expenditure in the Burdwan fever tract. The decrease of Rs. 7,43,000 under "provincial rates and taxes" is due to the income from district road and ferry tolls having been made over finally to "local funds," under which head they now appear; to the income from canal and river tolls being shown as receipts of the "Public Works Department;" and to the "cattle-trespass fees" being shown under "miscellaneous." The heading "provincial rates and taxes" is blank, because no rate or tax has been imposed for provincial purposes since the decentralization scheme first came into effect. The increased receipts under "jails" are due to the successful sale of jail manufactures. The increase under "registration" is partly due to the increased number of registration offices, and the increased accessibility of registrars.

The increase under "miscellaneous" is due to the transfer of "cattle trespass fees" from "provincial rates and taxes" as already explained. The "public works" increase represents the tolls on provincial canals and roads.

The great increase of 14¼ lakhs under "local funds" is due in part to the transfer of local tolls income to "local funds;" and 9 lakhs of the increase is due to the grant of that sum from the provincial balances to the several district committees.

Charges side.—The decrease of Rs. 92,000 under "provincial and local rates and taxes" is due to the transfer of the cattle pound charges to "miscellaneous." The small increase under jails is partly due to the cost of improved administration and partly to the larger outlay on manufacturing materials. The decrease of Rs. 1,19,000 under "police" is said to be due to the reduced cost of the executive police force. The increase of Rs. 52,000 under the head of "medical" is mainly due to the large expenditure on hospitals and dispensaries in the fever-stricken tracts of Burdwan. The large increase of Rs. 9,87,000 under "miscellaneous" is due to the grant of nine lakhs from provincial funds to the several district committees. The small increase of Rs. 52,000 in the "public works" expenditure needs no explanation. The increase of Rs. 54,000 under "office rents and taxes" is due to the transfer to the provincial budget of the taxes on public buildings which used in the preceding year to be defrayed from the imperial budget. The increased expenditure under "local funds" is in consequence of the much larger grants which the Lieutenant-Governor has been able to make to district committees for the work of the current year.

It is to be noted that the totals on both sides of the account are somewhat swelled by the grants from provincial funds to district committees appearing twice. Thus on the "*receipt*" side nine lakhs appears as provincial receipts or balance in hand, and again appears as "local fund receipts;" on the "*charges*" the nine lakhs appears as expenditure under provincial "miscellaneous," and a part of it already appears also as expenditure under "local funds."

REVENUE DEPARTMENT.

REVENUE.

Calcutta, the 28th January 1873.

1. COLONEL J. C. HAUGHTON, C.S.I., Commissioner of Cooch Behar, having been forced by ill-health to leave the country, notwithstanding that the Secretary of State had agreed to an extension of his service in consequence of his merits, the Lieutenant-Governor deems it right to express the thanks of Government to this distinguished officer for his very long and meritorious services to the Government of Bengal.

2. Colonel Haughton's services in Cabul, where severe wounds caused him the loss of arm, were concluded before he joined the North-West Frontier

Agency under this Government in the year 1844. Since that year he has, with intervals of employment under the Government of India at Port Blair and elsewhere, served in the wilder and more remote districts of Bengal from Sumbulpore and Singbhoom on the west, to Bhootan on the north and upper Assam on the extreme east. In times of peace he has served the Government well, and has ever shown the fullest consideration for the welfare and the wants of all classes of people under his administration. He has always exerted his influence in behalf of the wilder races. He has contributed much to the pacific solution of questions regarding the treatment of the mountain tribes which inhabit wilds on both sides of the Berhampooter valley: and his loss will be felt in future discussions on Bhootan frontier affairs, or possible trade relations with high Asia.

3. In time of war and trouble on the British frontier towards Bhootan, in the Garrow Hills, in the Cossyah and Jynteah Hills, he has personally done the very greatest service in advising or directing the operations, and by raising levies of hillmen for frontier police work or for carriage of material. His last piece of service has been to superintend to a most successful conclusion an expedition undertaken this cold season for the subjugation of the hitherto independent Garrows who have so long harassed our districts. He has managed with success the great estate of the infant Maharajah of Cooch Behar.

4. The Lieutenant-Governor would tender his thanks to Colonel Haughton for the good work he has done as a frontier officer, district officer, and Commissioner during the last thirty years, and will bring them prominently to the notice of the Government of India and the Secretary of State.

The said Secretary of State shall transmit such documents to Her Britannic Majesty's Principal Secretary of State for the Home Department, who shall then, by order under his hand and seal, signify to some Police Magistrate in London that such requisition has been made, and require him, if there be due cause, to issue his warrant for the apprehension of the fugitive.

On the receipt of such order from the Secretary of State, and on the production of such evidence as would, in the opinion of the Magistrate, justify the issue of the warrant if the crime had been committed in the United Kingdom, he shall issue his warrant accordingly.

When the fugitive shall have been apprehended, he shall be brought before the Police Magistrate who issued the warrant, or some other Police Magistrate in London. If the evidence to be then produced shall be such as to justify, according to the law of England, the committal for trial of the prisoner, if the crime of which he is accused had been committed in England, the Police Magistrate shall commit him to prison to await the warrant of the Secretary of State for his surrender; sending immediately to the Secretary of State a certificate of the committal and a report upon the case.

After the expiration of a period from the committal of the prisoner, which shall never be less than fifteen days, the Secretary of State shall, by order under his hand and seal, order the fugitive criminal to be surrendered to such person as may be duly authorized to receive him

accusé sera trouvé justifieraient son arrestation et son emprisonnement si le crime avait été commis dans ce pays; et dans le cas d'une personne prétenduement condamnée, que sur la production d'une preuve qui, d'après les lois du pays où le fugitif a été trouvé, établirait suffisamment qu'il a été condamné.

En aucun cas l'extradition ne pourra avoir lieu que lorsque le crime sera prévu par la législation sur l'extradition en vigueur dans les deux pays.

ARTICLE II.

Dans les Etats de Sa Majesté Britannique, autres que les Colonies ou les possessions étrangères de Sa Majesté, la manière de procéder sera la suivante:—

I. S'il s'agit d'une personne accusée—

La demande d'extradition sera adressée au Premier Secrétaire d'Etat de Sa Majesté pour les Affaires Etrangères par le Ministre ou autre Agent Diplomatique de Sa Majesté le Roi des Belges. A cette demande seront joints un mandat d'arrêt ou autre document judiciaire équivalent, délivré par un Juge ou Magistrat dûment autorisé à prendre connaissance des actes imputés à l'accusé en Belgique, ainsi que les dépositions authentiques ou les déclarations faites sous serment devant ce Juge ou Magistrat, énonçant clairement les dits actes, et contenant, outre le signalement de la personne réclamée, toutes les particularités qui pourraient servir à établir son identité.

Le dit Secrétaire d'Etat transmettra ces documents au Premier Secrétaire d'Etat de Sa Majesté Britannique pour les Affaires Intérieures, qui, par un ordre de sa main et muni de son sceau, signifiera à l'un ou l'autre Magistrat de Police à Londres que la demand d'extradition a été faite, et le requerra, s'il y a lieu, de délivrer un mandat pour l'arrestation du fugitif.

A la réception d'un semblable ordre du Secrétaire d'Etat, et sur la production de telle preuve qui, dans l'opinion de ce Magistrat, justifierait l'émission du mandat si le crime avait été commis dans le Royaume Uni, il délivrera le mandat requis.

Lorsqu'alors le fugitif aura été arrêté, il sera amené devant le Magistrat de Police qui a lancé le mandat, ou devant un autre Magistrat de Police à Londres. Si la preuve qu'on produira est de nature à justifier, selon la loi Anglaise, la mise en jugement du prisonnier dans le cas où le crime dont il est accusé aurait été commis en Angleterre, le Magistrat de Police l'enverra en prison pour attendre le mandat du Secrétaire d'Etat, nécessaire à l'extradition, et il adressera immédiatement au Secrétaire d'Etat une attestation de l'emprisonnement avec un rapport sur l'affaire.

Après l'expiration d'un certain temps, qui ne pourra jamais être moindre de quinze jours depuis l'emprisonnement de l'accusé, le Secrétaire d'Etat, par un ordre de sa main et muni de son sceau, ordonnera que le criminel fugitif soit livré à telle personne qui

on the part of the Government of His Majesty the King of the Belgians.

II. In the case of a person convicted—

The course of proceeding shall be the same as in the case of a person accused, except that the warrant to be transmitted by the Minister or other Diplomatic Agent in support of his requisition shall clearly set forth the crime of which the person claimed has been convicted, and state the fact, place, and date of his conviction. The evidence to be produced before the Police Magistrate shall be such as would, according to the law of England, prove that the prisoner was convicted of the crime charged.

After the Police Magistrate shall have committed the accused or convicted person to prison to await the order of a Secretary of State for his surrender, such person shall have the right to apply for a writ of *habeas corpus*; if he should so apply, his surrender must be deferred until after the decision of the Court upon the return to the writ, and even then can only take place if the decision is adverse to the applicant. In the latter case, the Court may at once order his delivery to the person authorized to receive him, without the order of a Secretary of State for his surrender, or commit him to prison to await such order.

ARTICLE III.

In the dominions of His Majesty the King of the Belgians, other than the Colonies or Foreign Possessions of His said Majesty, the manner of proceeding shall be as follows:—

I. In the case of a person accused—

The requisition for the surrender shall be made to the Minister for Foreign Affairs of His Majesty the King of the Belgians by the Minister or other Diplomatic Agent of Her Britannic Majesty, accompanied by a warrant of arrest issued by a Judge or Magistrate duly authorized to take cognizance of the acts charged against the accused in Great Britain, together with duly authenticated depositions or statements taken on oath before such Judge or Magistrate, clearly setting forth the said acts, and containing a description of the person claimed, and any other particulars which may serve to identify him.

The Minister for Foreign Affairs shall transmit the warrant of arrest, with the documents thereto annexed, to the Minister of Justice, who shall forward the same to the proper judicial authority, in order that the warrant of arrest may be put in course of execution by the Chamber of the Council (*Chambre du Conseil*) of the Court of First Instance of the place of residence of the accused, or of the place where he may be found.

After issue of the order for arrest, and on exhibition of the warrant of arrest, the foreigner may be provisionally arrested, and the *Juge d'Instruction* is authorized to proceed according to the rules prescribed by the *Code d'Instruction Criminelle*.

sera dûment autorisée à le recevoir au nom du Gouvernement de Sa Majesté le Roi des Belges.

II. S'il s'agit d'une personne condamnée—

La marche de la procédure sera la même que dans le cas d'une personne accusée, sauf que le mandat à transmettre par le Ministre ou autre Agent Diplomatique, à l'appui de la demande d'extradition, énoncera clairement le crime pour lequel la personne réclamée aura été condamnée, et mentionnera le fait, le lieu, et la date du jugement. La preuve à produire devant le Magistrat de Police sera telle, que d'après la loi Anglaise, elle établirait que le prisonnier a été condamné pour le crime dont on l'accuse.

Après que le Magistrat de Police aura envoyé la personne accusée ou condamnée en prison pour attendre l'ordre d'extradition du Secrétaire d'Etat, cette personne aura le droit de réclamer une ordonnance d'*habeas corpus*; l'extradition doit alors être différée jusqu'après la décision de la Cour sur le renvoi de l'ordonnance, et elle ne pourra avoir lieu que si la décision est contraire au demandeur. Dans ce dernier cas, la Cour peut immédiatement ordonner la remise de celui-ci à la personne qui est autorisée à le recevoir, sans qu'il soit besoin d'attendre l'ordre d'extradition du Secrétaire d'Etat, ou bien l'envoyer en prison pour attendre cet ordre.

ARTICLE III.

Dans les Etats de Sa Majesté le Roi des Belges, autres que les Colonies ou possessions étrangères de Sa dite Majesté, on procédera de la façon suivante:—

I. S'il s'agit d'une personne accusée—

La demande d'extradition sera adressée au Ministre des Affaires Etrangères de Sa Majesté le Roi des Belges par le Ministre ou autre Agent Diplomatique de Sa Majesté Britannique; à cette demande seront jointe un mandat d'arrêt délivré par un Juge ou Magistrat dûment autorisé à prendre connaissance des actes imputés à l'accusé dans la Grande Bretagne, ainsi que les dépositions authentiques ou les déclarations faites sous serment devant ce Juge ou Magistrat, énonçant clairement les dits actes, et contenant, outre le signalement de la personne réclamée, toutes les particularités qui pourraient servir à établir son identité.

Le Ministre des Affaires Etrangères transmettra le mandat d'arrêt, avec les pièces annexées, au Ministre de la Justice, qui fera parvenir les documents à l'autorité judiciaire, à l'effet de voir rendre le dit mandat d'arrêt exécutoire par la Chambre du Conseil du Tribunal de Première Instance du lieu de la résidence de l'inculpé, ou du lieu où il pourra être trouvé.

Après l'ordonnance d'arrestation et sur l'exhibition du mandat d'arrêt, l'étranger pourra être provisoirement arrêté, et le Juge d'Instruction est autorisé à procéder suivant les règles prescrites par le Code d'Instruction Criminelle.

The foreigner may claim to be provisionally set at liberty in any case in which a Belgian enjoys that right, and under the same conditions. The application shall be submitted to the Chamber of the Council (*Chambre du Conseil*).

The surrender shall not be granted unless on production of the order of the Chamber of the Council (*Chambre du Conseil*), of the decree of the Chamber of Indictments or Investigation (*Chambre des Mises en Accusation*), or of the act of criminal procedure (*acte de procédure criminelle*), issued by the competent Judge, formally decreeing or necessarily involving the sending of the accused before a criminal court (*la juridiction répressive*) delivered in original or in an authenticated copy, and after having taken the opinion of the Chamber of Indictments or Investigation (*Chambre des Mises en Accusation*) of the Court of Appeal, within whose jurisdiction the foreigner shall have been arrested.

The hearing of the case shall be public, unless the foreigner should demand that it should be with closed doors.

The public authorities and the foreigner shall be heard. The latter may obtain the assistance of Counsel.

Within a fortnight from the receipt of the documents, they shall be returned, with a reasoned opinion, to the Minister of Justice, who shall decide, and may order that the accused be delivered to the person duly authorised on the part of the Government of Her Britannic Majesty.

II. In the case of a person convicted—

The course of proceeding shall be the same as in the case of a person accused, except that the conviction or sentence of condemnation issued in original or in an authenticated copy, to be transmitted by the Minister or other Diplomatic Agent in support of his requisition, shall clearly set forth the crime of which the person claimed has been convicted, and state the fact, place, and date of his conviction. The evidence to be produced before the Magistrate charged with the investigation of the case shall be such as would, according to the Belgian laws, prove that the prisoner was convicted of the crime charged.

L'étranger pourra réclamer la liberté provisoire dans le cas où un Belge jouit de cette faculté, et dans les mêmes conditions. La demande sera soumise à la Chambre du Conseil.

L'extradition ne sera accordée que sur la production de l'ordonnance de la Chambre du Conseil, de l'arrêt de la Chambre des Mises en Accusation, ou de l'acte de procédure criminelle émané du Juge compétent, décrétant formellement ou opérant de plein droit le renvoi du prévenu ou de l'accusé devant la juridiction répressive, délivrés en original ou en expédition authentique, et après avoir pris l'avis de la Chambre des Mises en Accusation de la Cour d'Appel dans le ressort de laquelle l'étranger aura été arrêté.

L'audience sera publique, à moins que l'étranger ne réclame le huis-clos.

Le Ministère public et l'étranger seront entendus. Celui-ci pourra se faire assister d'un Conseil.

Dans la quinzaine à dater de la réception des pièces, elles seront renvoyées avec l'avis motivé au Ministre de la Justice, qui statuera et pourra ordonner que l'inculpé soit livré à la personne qui sera dûment autorisée au nom du Gouvernement de Sa Majesté Britannique.

II. S'il s'agit d'une personne condamnée—

Le cours de la procédure sera le même que dans le cas d'une personne accusée, sauf que le jugement ou l'arrêt de condamnation délivré en original ou en expédition authentique, à transmettre par le Ministre ou l'Agent Diplomatique à l'appui de la demande d'extradition, énoncera clairement le crime pour lequel la personne réclamée aura été condamnée, et mentionnera le fait, le lieu, et la date du jugement. La preuve à produire devant le Magistrat chargé de l'investigation du cas sera telle que, conformément aux lois Belges, elle établirait que le prisonnier a été condamné pour le crime dont on l'accuse.

ARTICLE IV.

A fugitive criminal may, however, be apprehended under a warrant issued by any Police Magistrate, Justice of the Peace, or other competent authority in either country, on such information or complaint, and such evidence, or after such proceedings as would, in the opinion of the person issuing the warrant, justify the issue of a warrant, if the crime had been committed or the prisoner convicted, in that part of the dominions of the two Contracting Parties in which he exercises jurisdiction: Provided, however, that, in the United Kingdom, the accused shall, in such case, be sent as speedily as possible before a Police Magistrate in London. He shall be discharged, as well in the United Kingdom as in Belgium, if within fourteen days a requisition shall not have been made for his surrender by the Diplo-

ARTICLE IV.

Un criminel fugitif peut, cependant, être arrêté sur un mandat délivré par tout Magistrat de Police, Juge de Paix, ou autre autorité compétente dans chaque pays, à la suite d'un avis, d'une plainte, d'une preuve, ou de tout autre acte de procédure qui, dans l'opinion de la personne délivrant le mandat, justifierait ce mandat, si le crime avait été commis ou la personne condamnée dans la partie des Etats des deux Contractants où il exerce juridiction: pourvu que, cependant, s'il s'agit du Royaume Uni, l'accusé soit, dans un pareil cas, envoyé aussi promptement que possible devant un Magistrat de Police à Londres. Il sera relâché, tant dans le Royaume Uni qu'en Belgique, si dans les quatorze jours une demande d'extradition n'a pas été faite par l'Agent Diplomatique de

matic Agent of his country, in the manner directed by Articles II and III of this Treaty.

The same rule shall apply to the cases of persons accused or convicted of any of the crimes specified in this Treaty, committed on the high seas, on board any vessel of either country which may come into a port of the other.

ARTICLE V.

If the fugitive criminal who has been committed to prison be not surrendered and conveyed away within two months after such committal (or within two months after the decision of the Court upon the return to a writ of *habeas corpus* in the United Kingdom), he shall be discharged from custody, unless sufficient cause be shown to the contrary.

ARTICLE VI.

When any person shall have been surrendered by either of the High Contracting Parties to the other, such person shall not, until he has been restored or had an opportunity of returning to the country from whence he was surrendered, be triable or tried for any offence committed in the other country prior to the surrender, other than the particular offence on account of which he was surrendered.

ARTICLE VII.

No accused or convicted person shall be surrendered, if the offence in respect of which his surrender is demanded shall be deemed by the Party upon which it is made to be a political offence, or to be an act connected with (*connexe à*) such an offence, or if he prove to the satisfaction of the Police Magistrate, or of the Court before which he is brought on *habeas corpus*, or to the Secretary of State, that the requisition for his surrender has in fact been made with a view to try or to punish him for an offence of a political character.

ARTICLE VIII.

Warrants, depositions, or statements on oath, issued or taken in the dominions of either of the two High Contracting Parties, and copies thereof, and certificates of or judicial documents stating the fact of conviction, shall be received in evidence in proceedings in the dominions of the other, if purporting to be signed or certified by a Judge, Magistrate, or officer of the country where they were issued or taken.

Provided such warrants, depositions, statements, copies, certificates, and judicial documents are authenticated by the oath of some witness, or by being sealed with the official seal of the Minister of Justice, or some other Minister of State.

ARTICLE IX.

The surrender shall not take place if, since the commission of the acts charged, the accusation, or the conviction, exemption from prosecution or punishment has been acquired by lapse of time, according to the laws of the country where the accused shall have taken refuge.

son pays, suivant le mode indiqué par les Articles II et III de ce Traité.

La même règle s'appliquera aux cas de personnes accusées ou condamnées du chef de l'un des crimes spécifiés dans ce Traité et commis en pleine mer, à bord d'un navire de l'un des deux pays, et qui viendrait dans un port de l'autre.

ARTICLE V.

Si le criminel fugitif qui a été arrêté n'est pas livré et emmené dans les deux mois après son arrestation (ou dans les deux mois après la décision de la Cour sur le renvoi d'une ordonnance d'*habeas corpus* dans le Royaume Uni), il sera mis en liberté, à moins qu'il n'y ait un motif suffisant de le retenir en prison.

ARTICLE VI.

Lorsqu'une personne aura été extradée par l'une des Hautes Parties Contractantes, cette personne, jusqu'à ce qu'elle soit rentrée dans le pays d'où elle a été extradée, ou qu'elle ait eu occasion de le faire, ne sera poursuivie pour aucun délit commis dans l'autre pays avant l'extradition, autre que celui pour lequel l'extradition a eu lieu.

ARTICLE VII.

Aucune personne accusée ou condamnée ne sera extradée, si le délit pour lequel l'extradition est demandée est considéré par la Partie requise comme un délit politique ou un fait connexe à un semblable délit, ou si la personne prouve, à la satisfaction du Magistrat de Police ou de la Cour devant laquelle elle est amené pour l'*habeas corpus*, ou du Secrétaire d'Etat, que la demande d'extradition a été faite, en réalité, dans le but de la poursuivre ou de la punir pour un délit d'un caractère politique.

ARTICLE VIII.

Les mandats, dépositions, déclarations sous serment, délivrés ou recueillis dans les Etats de l'une des deux Hautes Parties Contractantes, les copies de ces pièces, ainsi que les certificats ou les documents judiciaires établissant le fait de la condamnation, seront reçus comme preuve dans la procédure des Etats de l'autre Partie, s'ils sont revêtus de la signature ou accompagnés de l'attestation d'un Juge, Magistrat, ou fonctionnaire du pays où ils ont été délivrés ou recueillis.

Pourvu que ces mandats, dépositions, déclarations, copies, certificats, et documents judiciaires soient rendus authentiques par le serment d'un témoin, ou par le sceau officiel du Ministre de la Justice ou d'un autre Ministre d'Etat.

ARTICLE IX.

L'extradition n'aura pas lieu si, depuis les faits imputés, les poursuites, ou la condamnation, la prescription de l'action ou de la peine est acquise d'après les lois du pays où le prévenu s'est réfugié.

ARTICLE X.

If the individual claimed by one of the two High Contracting Parties in pursuance of the present Treaty should be also claimed by one or several other Powers, on account of other crimes committed upon their respective territories, his surrender shall be granted to that State whose demand is earliest in date; unless any other arrangement should be made between the Governments which have claimed him, either on account of the gravity of the crimes committed, or for any other reasons.

ARTICLE XI.

If the individual claimed should be under prosecution, or condemned for a crime or offence committed in the country where he may have taken refuge, his surrender may be deferred until he shall have been set at liberty in due course of law.

In case he should be proceeded against or detained in such country, on account of obligations contracted towards private individuals, his surrender shall nevertheless take place, the injured party retaining his right to prosecute his claims before the competent authority.

ARTICLE XII.

Every article found in the possession of the individual claimed at the time of his arrest, shall, if the competent authority so decide, be seized, in order to be delivered up with his person at the time when the surrender shall be made. Such delivery shall not be limited to the property or articles obtained by stealing or by fraudulent bankruptcy, but shall extend to everything that may serve as proof of the crime. It shall take place even when the surrender, after having been ordered, shall be prevented from taking place by reason of the escape or death of the individual claimed.

The rights of third parties with regard to the said property or articles are nevertheless reserved.

ARTICLE XIII.

Each of the High Contracting Parties shall defray the expenses occasioned by the arrest within its territories, the detention, and the conveyance to its frontier, of the persons whom it may consent to surrender in pursuance of the present Treaty.

ARTICLE XIV.

The stipulations of the present Treaty shall be applicable to the Colonies and Foreign Possessions of the two High Contracting Parties.

The requisition for the surrender of a fugitive criminal, who has taken refuge in a Colony or Foreign Possession of either Party, shall be made to the Governor or Chief Authority of such Colony or Possession by the Chief Consular Officer of the other in such Colony or Possession; or if the fugitive has escaped from a Colony or Foreign Possession of the Party on whose behalf the requisition is made, by the Governor or Chief Authority of such Colony or Possession.

ARTICLE X.

Si l'individu réclamé par l'une des Hautes Parties Contractantes, en exécution du présent Traité, est aussi réclamé par une ou plusieurs autres Puissances, du chef d'autres crimes commis sur leurs territoires respectifs, son extradition sera accordée à l'Etat dont la demande est la plus ancienne en date, à moins qu'il n'existe entre les Gouvernements qui l'ont réclamé un arrangement qui déciderait de la préférence, soit à raison de la gravité des crimes commis, soit à raison de tout autre motif.

ARTICLE XI.

Si l'individu réclamé est poursuivi ou condamné pour un crime ou un délit commis dans le pays où il s'est réfugié, son extradition pourra être différée jusqu'à ce qu'il ait été mis en liberté selon le cours régulier de la loi.

Dans le cas où il serait poursuivi ou détenu dans le même pays à raison d'obligations par lui contractées envers des particuliers, son extradition n'en aura pas moins lieu, sauf à la partie lésée à faire valoir ses droits devant l'autorité compétente.

ARTICLE XII.

Tout objet trouvé en la possession de l'individu réclamé au moment de son arrestation sera, si l'autorité compétente en a ainsi ordonné, saisi pour être livré avec sa personne lorsque l'extradition aura lieu. Cette remise ne sera pas limitée aux objets acquis par vol ou banqueroute frauduleuse, mais elle s'étendra à toute chose qui pourrait servir de pièce de conviction. Elle se fera même si l'extradition, après avoir été accordée, ne peut s'accomplir par suite de l'évasion ou de la mort de l'individu réclamé.

Sont, cependant, réservés les droits des tiers sur les objets susmentionnés.

ARTICLE XIII.

Chacune des Hautes Parties Contractantes supportera les frais occasionnés par l'arrestation sur son territoire, la détention, et le transport à la frontière des personnes qu'elle consentirait à extrader en exécution du présent Traité.

ARTICLE XIV.

Les stipulations du présent Traité seront applicables aux Colonies et Possessions étrangères des deux Hautes Parties Contractantes.

La demande d'extradition d'un criminel fugitif qui s'est réfugié dans une Colonie ou Possession étrangère de l'une des Parties sera faite au Gouverneur ou au fonctionnaire principal de cette Colonie ou Possession par le principal Agent Consulaire de l'autre dans cette Colonie ou Possession; ou, si le fugitif s'est échappé d'une Colonie ou Possession étrangère de la Partie au nom de laquelle l'extradition est demandée, par le Gouverneur ou le fonctionnaire principal de cette Colonie ou Possession.

Such requisitions may be disposed of, subject always, as nearly as may be, to the provisions of this Treaty, by the respective Governors or Chief Authorities, who, however, shall be at liberty either to grant the surrender, or to refer the matter to their Government.

Her Britannic Majesty shall, however, be at liberty to make special arrangements in the British Colonies and Foreign Possessions for the surrender of Belgian criminals who may there take refuge, on the basis, as nearly as may be, of the provisions of the present Treaty.

ARTICLE XV.

The present Treaty shall come into operation ten days after its publication in conformity with the laws of the respective countries.

Either Party may at any time terminate the Treaty on giving to the other six months' notice of its intention.

ARTICLE XVI.

The present Treaty shall be ratified, and the Ratifications shall be exchanged at Brussels as soon as may be within six weeks from the date of signature.

In witness whereof, the respective Plenipotentiaries have signed the same, and have affixed thereto the seals of their arms.

Done at Brussels, the thirty-first day of July, in the year of Our Lord one thousand eight hundred and seventy-two.

J. SAVILE LUMLEY. (L.S.)

Ces demandes seront faites ou accueillies en suivant toujours, aussi exactement que possible, les stipulations de ce Traité par les Gouverneurs ou premiers fonctionnaires, qui, cependant, auront la faculté ou d'accorder l'extradition ou d'en référer à leur Gouvernement.

Sa Majesté Britannique se réserve, cependant, le droit de faire des arrangements spéciaux dans les Colonies Anglaises ou Possessions étrangères pour l'extradition de criminels Belges qui y auraient cherché refuge, en se conformant, aussi exactement que possible, aux stipulations du présent Traité.

ARTICLE XV.

Le présent Traité entrera en vigueur dix jours après sa publication dans les formes prescrites par la législation des pays respectifs.

Chaque Partie peut en tout temps mettre fin au Traité, en donnant à l'autre, six mois à l'avance, avis de son intention.

ARTICLE XVI.

Le présent Traité sera ratifié, et les ratifications seront échangées à Bruxelles le plus tôt possible dans les six semaines de la date de la signature.

En foi de quoi les Plénipotentiaires respectifs ont signé ce même Traité, et y ont apposé le sceau de leurs armes.

Fait à Bruxelles, le trentième et unième jour de Juillet, dans l'année de grâce mil huit cent soixante-douze.

CTE. D'ASPREMONT-LYNDEN. (L.S.)

And whereas the ratifications of the said Treaty were exchanged at Brussels on the twenty-ninth day of August last:

Now, therefore, Her Majesty, by and with the advice of Her Privy Council, and in virtue of the authority committed to Her by the said recited Act, doth order, and it is hereby ordered, that from and after the twenty-eighth day of October, one thousand eight hundred and seventy-two, the said Act shall apply in the case of the said Treaty with the King of the Belgians

WE, the undersigned, the Members of the select committee of the Council of the Lieutenant-Governor of Bengal for the purpose of making laws and regulations, to which the Bill to amend the law relating to embankments and water-courses was referred for the purpose of considering the amendments proposed by the Hon'ble V. H. Schalch in the Bill, as amended by the former committee and submitted with their report of the 5th August 1872, have the honor to report that we have considered the said proposed amendments; that we have adopted some of them as proposed; and that we have introduced some others with certain alterations.

We have provided for the payment of a portion of the expenses by a first or second class municipality which is benefited by the work executed.

We have preserved the system, which has existed for many years, for recovering the cost of maintaining the Gunduk embankments in the Sarun district.

We have provided for the assignment to a certain estate or tenure of lakhiraj lands which are not included within the local limits of any estate or tenure.

We have given power to the Magistrate to remove an embankment or obstruction illegally constructed, if the person who constructed it fails to remove it within a fixed time.

We have provided for the extension by Government of the Hooghly and Burdwan Drainage Act to any scheme proposed for similar objects of which the Lieutenant-Governor may approve.

We have confined our attention to the amendments which were laid before the Council by the Hon'ble V. H. Schalch, and report upon them alone.

Powers of Engineers.

4. The Engineer may cause any embankment which connects public embankments, or forms, by junction with them, part of a line of embankments, or any embankment or water-course which is necessary for the protection or drainage of the neighbouring country, to be taken charge of and kept up by the officers of Government.

Power to take charge of embankments.

5. The Engineer may cause to be removed or altered any permanent or temporary embankment which endangers the stability of a public embankment or any obstruction of any kind which interferes with the general drainage of any tract of land.

Power to remove embankments and obstructions.

6. The Engineer may, when necessary, change the line of or lengthen any public embankment; or make a new embankment in the place of or renew any public embankment; or make an embankment in any place in which he may deem such embankment required for the protection of any lands, or for the improvement of any watercourse; or make a sluice in any public embankment.

Power to change line of embankment.

Power to improve drainage.

7. The Engineer may construct any sluice or watercourse, or effect any alteration in any public watercourse, when such construction or alteration may be required for the improvement of the health or for the protection of any village or cultivable land.

Applications for sluices to be made to Engineer.

8. If any landholder, farmer, or cultivator, be desirous of having a sluice made in any public embankment for the purpose of drainage or irrigation, he shall make an application in writing to the Engineer of the district in which such embankment is situate. The application shall contain such particulars of the land to be drained or irrigated as may enable the Engineer to judge of the advantage which may be derived from the work.

Power to alter roads and construct watercourses.

9. The Engineer may call upon the person in charge of any road which interferes with the drainage of any tract of land to alter such road, or to construct any watercourse under or through such road. In the event of such person failing to comply with such requisition in such manner and within such time as the Engineer shall prescribe, the said Engineer may forthwith cause the said road to be altered, or the said watercourse to be constructed. The expenses of such alteration or construction shall be borne by the person in charge of the said road.

10. Whenever any person is desirous that any new embankment be erected, or that any new watercourse be made, or that any watercourse be obstructed or diverted, if such embankment or watercourse is likely to interfere with, counteract, or impede, any public embankment or any public watercourse, he shall apply to the Engineer, and at the time of making such application shall deposit with him a statement of the proposed works.

Power to make repairs.

11. The Engineer may make any repairs in, and may do all acts necessary and proper for the maintenance of any public embankment, public watercourse, or other work executed or taken charge of under the provisions of this Act, or of any of the Acts repealed by this Act.

Power to alter railroads and construct watercourses.

12. The Engineer may call upon the manager or other person in charge of any railroad which interferes with the drainage of any tract of land to alter such railroad or to construct any watercourse, under or through such railroad. In the event of such person failing to comply with such requisition in such manner and within such time as the Engineer shall prescribe, the said Engineer may thereupon, with the previous sanction of the Lieutenant-Governor, cause the said railroad to be altered, or the said watercourse to be constructed in such manner as the Lieutenant-Governor shall direct. The expenses of such alteration or construction shall be borne by the said manager or other person in charge of the said railroad.

Power to make temporary embankment and dams.

13. Whenever any person is desirous that a temporary water-course should be made through, or that a temporary roadway should be made over, any public embankment, or that a temporary dam should be constructed in any embanked river, or public watercourse, he shall apply to the Executive Engineer of the district, who shall communicate the application to the Engineer, and the Engineer shall pass such orders thereon as he shall think fit. If the proposed work is to be executed by an officer of Government, the applicant, before the commencement of the work, shall deposit the amount estimated by the said Engineer to be necessary to defray the expenses of and incident to making such roadway, or of and incident to making and closing or removing such watercourse or dam. If such amount is found insufficient, the said Engineer shall recover the further amount required; and if it exceeds the said amount, such excess shall be returned to the person depositing the same.

Power to remove houses.

14. Whenever the Engineer shall be of opinion that the removal of any trees, houses, huts, or other buildings situated between a public embankment and the river is necessary, he shall make a report to that effect, accompanied by a detailed statement of the trees, houses, huts, or other buildings to be removed, to the Collector of the District in whose jurisdiction the land on which such trees, houses, huts, or other buildings stand, is situated, and the Collector shall report the same to the Lieutenant-Governor in order that proceedings may be taken, under the provisions of "The Land Acquisition Act 1870", for obtaining possession of such trees, houses, huts, and buildings. Provided always that in case the Engineer be of opinion that the delay required by such proceedings is likely to be attended with grave and imminent danger to life or property, it shall be lawful for him forthwith to cause such trees, houses, huts, or buildings to be removed, and in such case the compensation due therefor shall be ascertained and paid in the manner hereinafter provided.

Sluices to be opened under authority of the Engineer.

15. Sluices constructed in any public embankment shall be opened or shut only by or with the general or special permission of the officer in the immediate charge of the embankment, under such orders, either general or special, as he may receive from the Engineer.

Power to appropriate land or earth.

16. In any case where an embanked towpath has heretofore been maintained by Government alongside any canal, river, khal, or channel, the Engineer shall be entitled to appropriate without payment, as heretofore, land or earth for the maintenance, repair or re-construction of such embanked towpath. If in any case the Engineer shall consider it necessary for the purposes of towing to enlarge an existing towpath, or to construct a new towpath, proceedings shall be taken in accordance with the subsequent provisions of this Act relating thereto.

Power to enter and survey land, &c.

17. It shall be lawful for the engineer, or any person whom he may authorize in that behalf, in order to carry out any of the purposes of this Act,—

Provided that no person shall enter into any building or upon any enclosed court or garden attached to a dwelling-house (unless with the consent of the occupier thereof) without previously giving such occupier at least seven days' notice in writing of his intention to do so.

Payment for damage.

The officer so authorized shall at the time of such entry pay or tender payment for all necessary damage to be done as aforesaid; and, in case of dispute as to the sufficiency of the amount so paid or tendered, he shall at once refer the dispute to the decision of the Collector, and such decision shall be final.

PART III.

Reference to the Collector and procedure thereon.

Notice to the Collector.

18. Save as is by this Act otherwise provided, the Engineer, before causing any of the works mentioned in Sections 5 to 10 both inclusive, or any of them, to be executed, shall prepare and submit to the Collector of the district plans, specifications, and estimates of the proposed works, together with a map showing the boundaries of the various estates likely to be affected by the said works, and a notice in writing of his intention to execute such works, and shall not commence any of such works until final order made in respect thereto. Such notice shall be in the form and state the particulars mentioned in Schedule (A) to this Act annexed. Upon the receipt of such notice the Collector shall cause a proclamation to be issued, which shall be in the form and state the particulars mentioned in Schedule (B). The Collector shall append to such proclamation a list of the estates, villages, and municipalities, mentioned in the said notice, and such others as he may consider likely to be affected by the works proposed.

Publication of proclamation.

19. Every such proclamation shall be published by affixing the same at the cutcherry of the Collector, and in the manner provided in the third clause of Section 63.

Proclamation to be published for thirty days.

22. The Collector shall, on the day appointed for the hearing, or on any subsequent day to which the hearing shall be adjourned, hear the objections of any persons who may appear, and, after recording any evidence which they may adduce, shall communicate the objections that may be made, together with his opinion thereon and on the proposed works, to the Engineer, who shall return the same with his opinion to the Collector. If the Engineer agree in opinion with the Collector, the Collector shall pass an order accordingly in regard to the execution of the aforesaid works, and notice of such order shall be served on the persons appearing in pursuance of the proclamation. If he differ from the Collector, the case shall be referred to the Commissioner of Revenue, who shall pass such orders thereon as he may deem fit.

PART IV.

Procedure in cases of imminent danger to life or property.

Proceedings in emergencies.

23. Whenever the Engineer shall be of opinion that the proceedings commenced by notice under Part III of this Act would cause delay in the exercise of any of the powers by Sections 5, 6, and 7 conferred upon him, likely to be attended with grave and imminent danger to life or property, he may forthwith commence to exercise such powers without reference to the Collector. Provided that he shall forthwith inform the Collector thereof and of the nature of the danger, and give notice of his intention to continue to exercise such powers. The Collector, in any case where he shall see fit, may direct the Engineer to suspend further action until after the completion of such proceedings and enquiries. The Engineer, as soon as he conveniently may, after giving such notice of his intention, shall give notice in writing to the Collector, together with plans, specifications, estimates, and maps, as provided in section 18, appending thereto a statement that the work mentioned therein has already been commenced, and thereupon such proceedings and enquiries shall be had as in and by Part III of this Act are directed.

Notice to the Collector.

Power to take possession of land.

24. Whenever any land, or earth from any land the property of any person, is required for the purposes of any works commenced in pursuance of the provisions of the last preceding section, or for the purposes of section 11 in cases where the Engineer shall be of opinion that proceedings for the acquisition of such land according to the provisions contained in section 28 would cause delay as aforesaid, the Engineer shall cause public notice in form in Schedule (C) to be given at convenient places in the locality in which such land is situated, and he may at the same time take possession of the same for the said purposes. Provided that he shall, so soon thereafter as he conveniently may, give notice thereof to the Collector.

Compensation for standing crops and trees.

25. The Engineer shall ascertain and record the nature and estimated value of the crops and trees (if any) standing on such land, and shall offer adequate compensation to the persons interested. If such offer is not accepted, he shall forward the record with a report to the Collector, and the value of such crops and trees shall be allowed for in awarding compensation for the land under the provisions of section 32.

Power to Executive Engineer to act for Engineer.

26. Whenever the Engineer may be absent, the Executive Engineer of the District may, in case he shall be of opinion that delay for the purpose of obtaining the orders of the Engineer would be attended with grave and imminent danger to life or property, exercise the powers in and by the three last preceding sections conferred on the Engineer.

Power to restore embankments, &c.

27. Whenever, upon an enquiry had under the provisions of this Part, it has been determined in the final and conclusive order to be passed on such enquiry that anything done by the Engineer was unnecessary, the land or the embankments or drainage shall, so far as any alteration thereof shall appear to be unnecessary, be at the expense of the Government restored as nearly as possible to the state in which they were when the Engineer commenced to act under the provisions of this Part; and any person who shall have sustained loss, damage, or injury by the execution of such works, shall receive compensation from the Government to be assessed and imposed according to the provisions contained in Part V of this Act.

PART V.

Acquisition of lands.

Acquisition of land.

28. Whenever in the course of proceedings under this Act, save in those cases in which the Engineer has proceeded under the provisions of Part IV, it appears that land is required for any of the purposes thereof, such purpose shall be deemed to be a public purpose within the meaning of The Land Acquisition Act, 1870, and such proceedings shall be forthwith taken as are directed by the said Act or by any other law for the time being governing the acquisition of lands for public purposes.

When land taken, notice to be published.

29. Whenever any land shall have been taken or used under the provisions of Part IV, the Collector shall, unless he shall direct the Engineer to suspend further action, cause public notice in form in Schedule (D) to be given at convenient places on or near the land so taken, stating that Government has taken possession of the land, and that claims to compensation for all interests in such land shall be made to him. Thereupon the land shall vest absolutely in the Government free from all incumbrances, subject, however, to the claims for compensation to be ascertained in manner as in this Part is provided.

Contents of notice.

30. Such notice shall state the particulars of the land so taken, and shall require all persons interested in the land to appear personally or by agent before the Collector at a time and place therein mentioned (such time not being earlier than fifteen days after the date of publication of the notice), and to state the nature of their respective interests in the land, and the amount and particulars of their claims to compensation for such interest.

Further notice to be served on certain parties.

31. The Collector shall also serve notice to the same effect on the occupier (if any) of such land, and on all such persons known or believed to be interested therein, or to be entitled to act for persons so interested, as reside, or have agents authorized to receive service on their behalf, within the revenue district in which the land is situate.

Proceedings after notice.

32. After service of such notices proceedings shall be had and taken to determine the amount of compensation to be payable in respect of such land, and all the provisions contained in Sections 10 to 15, 18 to 34, 36, 37, 38, 42, 51, 55, 58 (as amended by Act IX of 1871), and 59 of the Land Acquisition Act, 1870, shall be applicable to such proceedings.

Compensation for consequential damage.

33. Whenever any land other than land required or taken by the Engineer, or any right of fishery, right of drainage, right of the use of water, or other right or property, shall have been injuriously affected by the due exercise of the powers or provisions of this Act, the person in whom such right is vested may prefer a claim by petition to the Collector for compensation.

Application to be made within a year.

34. No claim shall be entertained which shall be made later than one year next after the completion of the work by which such right is injuriously affected.

Procedure for such compensation.

35. Subject to the provisions of the next preceding section, the Collector shall proceed to enquire into each claim made, and to determine the amount of compensation, if any, which should be made, and the person to whom the same should be payable, and the Collector, on the receipt of such claim, shall fix a time and place for hearing such claim, and Sections 9 to 15, 18 to 23, 26 to 34, 36, 37, 38, 51, 54, 55, 58 (as amended by Act IX of 1871), and 59 of the said Land Acquisition Act, 1870, shall apply to enquiries into such rights as aforesaid, or the exercise of such rights as aforesaid, and to the awards of compensation for injuries to such rights as though they were rights in and awards of compensation for land needed for a public purpose.

Matters to be considered in determining compensation.

First, the market value of the property injuriously affected at the time of acquiring the land;

Secondly, the damage sustained by the claimant by reason of such acquisition injuriously affecting the property;

Thirdly, the consequent diminution of the market value of the property injuriously affected at the time of acquiring the land.

But the Judge or Assessors shall not take into consideration—

Appeal from Judge's decision as to compensation.

37. If the Judge differs from both the assessors as to the amount of compensation under the provisions contained in section 32 or section 35, he shall pronounce his decision, and the Collector or the person interested (as the case may be) may appeal therefrom to the Court of the District Judge.

Land, &c., taken possession of to vest in Secretary of State.

All land, earth, pathways, sluices, gates, bermes, hedges, belonging to or forming part of any embankment or watercourse, of which charge has been or may hereafter be taken by the officers of Government, shall vest in the Secretary of State for India, and shall be held by him on behalf of the Government in respect of the embankments mentioned in schedule E annexed to this Act, and in respect of other works on behalf of the persons interested in the lands to be protected or benefited by such embankment or watercourse, subject to the provisions of section 69; and all monies received on account of such lands shall be payable to the Engineer and credited to the cost of the construction and maintenance of such works respectively.

PART VI.

COST OF WORKS, PROCEEDINGS, &c.

1. *Ascertainment thereof.*

Embankments in schedule E.

41. The provisions in this Part contained shall not apply to any of the embankments mentioned in Schedule (E) to this Act annexed, save so far as any works or repairs are executed therein or in relation thereto under the provisions of Sections 10 and 13 of this Act respectively. All sums payable in respect of any works or repairs executed therein or in relation thereto, except under the provisions of the said sections respectively, shall be paid by the local Government. If at any time after the passing of this Act the Collector, on enquiry made by him as far as possible in accordance with the provisions of Part III of this Act, shall find that it is unnecessary for the public interests to retain any embankment mentioned in Schedule (E), the Lieutenant-Governor may direct that the same shall be no longer included in the said Schedule. Provided that the same shall be restored to the said Schedule if on any subsequent enquiry similarly conducted it shall be found necessary so to do.

Alteration of schedule.

Estimate and specifications to be prepared.

42. Specifications of any works or repairs to be executed under the provisions of this Act, and estimates of the expenses to be incurred therein or relating thereto, including such proportion of establishment charges as the Lieutenant-Governor shall direct, shall be prepared by the Engineer as soon after the month of October in each year as may be practicable. And whenever it appears that the actual expenses to be incurred will exceed the amount mentioned in the said estimates by one-tenth, the Engineer shall forthwith prepare further estimates, and if necessary, further specifications. Copies of all specifications and estimates shall be transmitted to the office of the Collector, together with vernacular translations thereof, or such abstracts thereof as the Lieutenant-Governor may from time to time direct, and may be examined by any person interested in such works or repairs. Notice of the receipt of specifications and estimates shall be served for all estates chargeable for or likely to be affected by the said works or repairs; and should any objection in regard to the amount of such expenses be preferred by any such person within a period of one month from the date of such notice, the Collector shall communicate the objection, with his own opinion thereupon, to the Engineer, who shall pass such orders as may appear to him reasonable and proper. Such order shall be subject in any case to an appeal by the person making such objection, and to a reference by the Collector, to the Commissioner whose decision shall be final.

Preparation and settlement of accounts.

43. The accounts of the actual expense incurred in executing any works or repairs shall be prepared as soon as possible after the completion thereof. The Engineer shall sign a certificate stating the true amount of all such expenses and the names of the estates chargeable for and of the estates and villages affected by the said works and repairs. Copies of the said accounts and certificates shall be forwarded to the office of the Collector, and may be there examined by any person interested. Notice of the receipt thereof shall be served for the said estates and villages and such others as in the opinion of the Collector are liable to contribute to the payment of the said amount; and if, within thirty days from the service of such notice, any interested person shall object to the accounts on the ground either that the work charged for has not been performed, or that the whole sum charged has not been expended, or that the rates of charge are higher than those mentioned in the estimates, the Collector shall enquire into such objection, and may pass any order thereon subject in any case to an appeal by the objector or to a reference

by the Engineer to the Commissioner of Division whose decision shall be final.

Total sum payable.

44. The Collector shall add to the amount appearing in the said certificate all sums which have been paid or have become payable in respect of compensation, costs and expenses under and incidental to any proceedings taken or directed to be taken under Parts III and V of this Act, including costs of all surveys and plans. He shall thereupon make an order specifying the total sum found payable, and in respect of works done under sections 9, 12, and 13, the persons by whom, or in respect of other works the estates in respect of which, the same is payable to him. Provided that the Collector may, if he thinks fit, order that a portion of the total sum payable shall be paid by any municipality of the first or second class which is in his opinion benefited or protected by the works or repairs executed. If the order is made in respect of work done under sections 9, 12, or 13, the same shall forthwith be served upon the party or parties liable to pay; otherwise the Collector shall proceed under the provisions in the next chapter contained. Interest may be charged upon any sum paid as compensation from the date of payment thereof at such rate, not exceeding 5 per cent per annum, as the Lieutenant-Governor may direct.

Parties liable to pay.

45. The said total sum, save so far as is otherwise provided in this Act, shall be paid to the Collector by the zemindars of the estates in which are situated the lands benefited or protected by the repairs or works executed. Provided that where any specific sum has hitherto been annually demanded in respect of any embankment not included in schedule E, and when the said embankment is at the time of this Act coming into operation being maintained by Government, then such special payments shall after the passing of this Act thenceforth cease and determine.

Every zemindar, who is liable under this rule for the payment of the whole or a portion of such total sum, shall be entitled to recover from the proprietor of every tenure which is declared to be a part of his estate, the sum apportioned to such tenure by the Collector, under the provisions of section 50. And similarly, every proprietor shall be entitled to recover from the proprietor of any subordinate tenure, which is declared to be a part of his tenure, the sum apportioned to such subordinate tenure by the Collector, under the said provisions.

---

2. *Apportionment thereof.*

Notice to be given before apportionment.

46. So soon as the total sum payable as aforesaid has been ascertained, the Collector shall cause a notice to be served for every one of the said estates and villages mentioned in section 43. Every such notice shall specify the estates and villages aforesaid, and that an enquiry will be held at a day and place therein named for the purpose of apportioning amongst the zemindars and proprietors the said total sum, with interest and the costs of apportionment.

Whenever it has been ordered by the Collector that a municipality is liable for a portion of the said total sum, the notice shall contain a statement to that effect, and shall be served on the chairman of the municipality.

Mode of enquiry as to the proportion chargeable to each estate.

47. On the day fixed in the said notice, which shall not be less than thirty days later than the date of any service of such notice, the Collector shall proceed to make the said enquiry. In making this enquiry he shall receive such evidence as may be tendered by, or on behalf of, the said zemindars and proprietors, and by, or on behalf of, any other persons who may claim to be interested therein.

Names of proprietors.

48. In any such enquiry the Collector shall take down in writing the names of all persons who may claim, or who may be alleged by any party interested, to be proprietors of tenures within any of the estates mentioned in such notice. In default of appearance of any such person, the Collector shall issue and serve a notice calling on him to appear at a date and place therein mentioned, and to show cause against being included in the order of apportionment to be made therein, and shall adjourn the enquiry till such date.

Apportionment amongst zemindars.

49. At such or any subsequently adjourned enquiry, the Collector, if there be only one estate liable, shall charge the zemindar thereof with the total amount payable; and if there be two or more estates, he shall apportion the same amongst the zemindars thereof, rateably in the proportion of the respective benefits derived by such estates from such works or repairs; or in proportion of the areas of the lands benefited or protected thereby, and comprised within such estates respectively; or with the sanction of the Local Government in proportion to the amount of revenue respectively payable for such estates, if before the passing of this Act such proportion has been usually adopted.

Provided that the said total amount payable in respect of the embankments on the right bank of the river Gunduk shall be chargeable, in accordance with the custom in force for such estates, to the zemindars of all the estates situated in the district of Sarun, in proportion to the amount of revenue respectively payable for such estates.

Amongst proprietors.

50. The Collector shall, in like manner, apportion, except in respect of the said Gunduk embankments, the amount payable in respect of each estate amongst all the tenures therein, rateably in the proportion of benefit so received or area so benefited or protected, first deducting therefrom such sum as on the like principle of proportion is payable in respect of such portion of the estate as is not included within any tenure.

51. The Collector shall likewise determine the amount payable in respect of any municipality rateably in proportion to the benefit derived by it from the work or repair executed, and the remaining sum shall be apportioned as directed in the two last preceding sections. Provided that no rate-payer in such municipality shall be required to pay any portion of such remaining sum in respect of any tenure which is situated within the limits of such municipality.

52. All lands held without payment of rent, not being estates entered in the register of revenue-free tenures, shall, for the purposes of this Act, be deemed to form a part of the tenure within the local boundaries of which they are included; and, if they are not included within the local boundaries of any tenure, then to be a part of the estate within the local boundaries of which they are included; and if they are not included within the local boundaries of any estate, then to be a part of such conterminous estate as the Collector, in whose district such conterminous estate is situated, shall, by an order under his seal and signature, declare.

Payable by instalments.

53. The amount apportioned to any estate, tenure, or municipality, shall be payable in equal instalments on such days as the Lieutenant-Governor shall direct, provided that no instalment shall exceed four annas for every acre of land in respect of which the same is payable, and that not more than four instalments shall be payable in any one year. And provided also in the case of a municipality that the instalment payable in any one year shall not exceed ten rupees per centum of the total income of such municipality during the year last preceding.

Interest.

Interest shall be charged on the unpaid portion of the said amount from the date of the same becoming due until payment thereof at such rate, not exceeding five per cent. per annum, as the Lieutenant-Governor shall from time to time determine.

Final order of apportionment.

54. On the completion of the apportionment the Collector shall make an order specifying the estates and tenures, and the several sums payable in respect thereof, the instalments of such sums and the dates on which the same are payable.

3. *Recovery thereof.*

Orders for payment.

55. The Collector shall, within thirty days from the final order of apportionment, make and serve for every estate therein mentioned an order, stating the amount with interest due in respect thereof and that the same is payable to him, and the date or dates at which such amount or instalments thereof shall become payable to him.

Recovery from zemindars.

56. If such sum or any instalment thereof be not, pursuant to the said order, paid, the same with interest shall be recoverable as arrears of a demand under the provisions of Bengal Act VII of 1868 (*to make further provision for the recovery of arrears of land revenue and public demands recoverable as arrears of land revenue.*)

From proprietors.

57. Every zemindar or proprietor to whom any sum or instalment thereof is payable under the said order, may recover the same with interest as aforesaid in the manner provided for the recovery of arrears of rent in respect of putnee tenures by the provisions of clauses 2 and 3 of section 8, sections 9, 10, 14, 15, and clauses 1, 2, and 3 of section 17, of Regulation VIII of 1819, as amended by Bengal Act VIII of 1865; provided that the right or interest of any person holding from the proprietor of such tenure shall not be affected by any sale held under these provisions. A copy of the said order, certified under the name and seal of the Collector, shall be received in any suit for the recovery of the same as conclusive evidence that the amount was apportioned as therein mentioned, but shall not be evidence as to the existence of, or as to any right in the tenure to which the said amount has been apportioned.

It shall be lawful for the commissioners of any municipality to pay to the Collector, on the dates fixed by the order passed under section 54, the sum which is declared in such order to be payable in respect of such municipality; and for the purpose of realizing the amount so disbursed to increase the rate of any tax leviable therein.

NOTIFICATIONS.

COMMERCE AND TRADE.

Fort William, the 31st January 1873.

No. 15.—The following regulations for assessing the tonnage of foreign vessels for payment of tonnage dues at British Indian ports have been sanctioned by His Excellency the Governor-General in Council, and are published for general information :—

1. Where fees are charged for measuring British ships, fees may be charged for the measurement of foreign ships.

2. Where the difficulties of measuring are great, an estimated equivalent or approximate measurement for the purpose of levying dues at the port may be taken from the particulars shown in the ship's papers or otherwise.

If this approximation be objected to, the objector (whether ship-owner or receiver of dues) may demand measurement, but in such case he must pay the fees and expenses.

3. A measurement certificate, if issued by the authorized measurers in any part of Her Majesty's dominions, United Kingdom or abroad, upon actual measurement, to remain in force for two years from the date of its issue, and will, while it is in force, be valid in all parts of the British dominions; provided (1) that the vessel to which it relates is not altered during the period to an extent interfering with her original capacity; and (2) that stores, cargo, or passengers, are *not* carried in any spaces which have not been included in, or which have been deducted from, the gross tonnage. A measurement certificate thus given to be renewable at the end of the two years without re-measurement, if the vessel upon survey is found to have been unaltered, and if stores, cargo, or passengers, have not been carried in any unmeasured or exempted spaces.

4. The tonnage of ships belonging to nations who have adopted the rules in force in the United Kingdom, to be accepted as on their national papers in so far as the arrangement goes.

The only country at present whose Government has adopted the British rules in their entirety is Denmark, but the following countries (*videlicet*, America and the Austro-Hungarian Empire) have accepted the principle of the gross tonnage. To arrive at the registered tonnage in ships of these countries, it will only be necessary to make such deduction from the gross tonnage as is allowed on compliance with British law. It will, of course, be open to any local Government to decline to accept the statement of tonnage given on any papers, if it should appear that any part of the ship—notably closed in freight-earning spaces, in the uppermost decks—has been omitted from measurement in the national papers.

5. The local Governments to provide and remunerate proper measuring surveyors, and no other surveyors to be recognised.

6. Travelling expenses incurred by the surveyors through vessels lying at a distance from the head port to be borne by the ship.

The following orders, issued by the Government of India in the Financial Department, are republished for general information :—

LEAVE AND ALLOWANCES.

The 28th January 1873.

No. 733.—The Governor-General in Council directs that the following be added to Supplement F to the Civil Leave Code after Section 12 :—

Section 12A.—An Officer permitted to present himself at any examination, which must be passed before a person is eligible for higher subordinate appointments, such as Deputy Magistracies, may, under the orders of the Local Government, be allowed leave of absence for the number of days which is actually necessary to enable him to attend at the examination. This absence is expected to be short, and no deduction will be made from the Officer's allowances, unless the head of the Office finds it necessary to enable him to make arrangements for carrying on the work: such leave should not be allowed more than twice for each standard of examination.

PENSIONS AND GRATUITIES.

The 29th January 1873.

No. 715.—The Governor-General in Council directs that the following paragraph be added to Rule 1 under Section 96 of the Civil Pension Code :—

But Engineers, Boiler-makers, and Warrant Officers of the Indian Navy, who were pensioned on the abolition of the Navy in 1862, are permitted to draw during re-employment pension in addition to full pay.

No. 734.—*The 30th January* 1873.—The Governor-General in Council directs that the following be added as Rule 3 under Section 41 of the Civil Leave Code :—

3. Leave granted to an Officer, who is permitted to present himself at any examination which must be passed before a person is eligible for higher subordinate appointments, such as Deputy Magistracies, is reckoned as service (Section 12A of Supplement F to the Civil Leave Code).

The following orders, issued by the Government of India, Military Department, are republished for general information :—

No. 103.—*The* 31*st January* 1873.—The following Notification issued by the Financial Department, No. 372, dated the 16th January 1873, is republished for general information :—

PENSIONS AND GRATUITIES.

The 16*th January* 1873.

No. 372.—The following Financial Despatch from Her Majesty's Secretary of State for India to the Government of India, No. 513, dated 4th December 1872, is published for general information :—

1. I have considered in Council your Financial letter dated the 26th September last, No. 359, forwarding papers relating to a request by * * * that on resigning Civil employment and accepting the Military pension to which he is entitled, he may be re appointed to be a Deputy Commissioner of the grade in which he at present serves.

2. In reference to this case, you state that in the Financial despatch, dated the 9th July 1868, No. 290, "the following rule was laid down :"—

"When an Officer, who has retired on a pension obtained, not on medical certificate but after a prescribed period of service, is subsequently employed in any public capacity, he shall be permitted to draw the pension in addition to the salary of the office to which he may be appointed; but in the event of a Military Officer resigning the service after he has been appointed to a Civil office, he must at the same time vacate that office. He may, however, be re-appointed to the office, not as a matter of course, but only in the event of your considering it decidedly for the benefit of the public service."

3. You also state that the principle of that rule, which was at first applicable to Commissioned Military Officers in Civil employ, has been extended to all Civil Officers, and that Section 96 of the Civil Pension Code provides that "no Officer can be permitted to retire with the view of being re-employed, whether in the general service or at the charge of local funds, and drawing pension in addition to pay," and you propose that that rule should now be extended to Military Officers in Civil employ.

4. Previous to the receipt by you of the Financial despatch, dated the 9th July 1868, No. 290, it was the invariable rule that a Military pension should merge in Civil salary, and it was only on "your strong recommendation" that any modification of that rule was authorized.

5. Under the terms of the modification sanctioned in 1868, you have full power to guard against the abuse of the concession granted by declining to re-appoint any Officer to a Civil appointment who may resign the service for the purpose of obtaining Military pension in addition to Civil salary; and I am of opinion that you should do so, except under exceptional circumstances, when it is decidedly for the benefit of the public service. I see no objection, however, to your proposition to extend to Military Officers in Civil employ the rule on the subject which you have laid down as regards Civil Officers.

6. * * * request should accordingly be negatived.

No. 326, dated 21st January 1873.

THE following statement showing the result of the provincial finance during the first six months of the current year, is published for general information.

The explanations of discrepancies between the results of the last half-year and of the corresponding half-year of the preceding year are as follows:—

Receipt side.—The increase of Rs. 1,86,000 under "imperial allotment" is due to the creation of additional provincial services for which allotments of imperial money had to be made, and to the special grant of one lakh for expenditure in the Burdwan fever tract. The decrease of Rs. 7,43,000 under "provincial rates and taxes" is due to the income from district road and ferry tolls having been made over finally to "local funds," under which head they now appear; to the income from canal and river tolls being shown as receipts of the "Public Works Department;" and to the "cattle-trespass fees" being shown under "miscellaneous." The heading "provincial rates and taxes" is blank, because no rate or tax has been imposed for provincial purposes since the decentralization scheme first came into effect. The increased receipts under "jails" are due to the successful sale of jail manufactures. The increase under "registration" is partly due to the increased number of registration offices, and the increased accessibility of registrars.

The increase under "miscellaneous" is due to the transfer of "cattle trespass fees" from "provincial rates and taxes" as already explained. The "public works" increase represents the tolls on provincial canals and roads.

The great increase of 14¼ lakhs under "local funds" is due in part to the transfer of local tolls income to "local funds;" and 9 lakhs of the increase is due to the grant of that sum from the provincial balances to the several district committees.

Charges side.—The decrease of Rs. 92,000 under "provincial and local rates and taxes" is due to the transfer of the cattle pound charges to "miscellaneous." The small increase under jails is partly due to the cost of improved administration and partly to the larger outlay on manufacturing materials. The decrease of Rs. 1,19,000 under "police" is said to be due to the reduced cost of the executive police force. The increase of Rs. 52,000 under the head of "medical" is mainly due to the large expenditure on hospitals and dispensaries in the fever-stricken tracts of Burdwan. The large increase of Rs. 9,87,000 under "miscellaneous" is due to the grant of nine lakhs from provincial funds to the several district committees. The small increase of Rs. 52,000 in the "public works" expenditure needs no explanation. The increase of Rs. 54,000 under "office rents and taxes" is due to the transfer to the provincial budget of the taxes on public buildings which used in the preceding year to be defrayed from the imperial budget. The increased expenditure under "local funds" is in consequence of the much larger grants which the Lieutenant-Governor has been able to make to district committees for the work of the current year.

It is to be noted that the totals on both sides of the account are somewhat swelled by the grants from provincial funds to district committees appearing twice. Thus on the "*receipts*" side nine lakhs appears as provincial receipts or balance in hand, and again appears as "local fund receipts;" on the "*charges*" the nine lakhs appears as expenditure under provincial "miscellaneous," and a part of it already appears also as expenditure under "local funds."

NOTIFICATION.

The 27th December 1872.—In accordance with the provisions of sections 29 to 36 of Act XXII of 1855 (an Act for the Regulation of Ports and Port Dues), the Lieutenant-Governor is pleased to direct the observance of the following rules for the regulation of vessels and boats having gunpowder or other combustible ammunition on board. These rules will come into effect from the 1st of March 1873, and His Honor is further pleased to notify, under the provisions of section 5 of the Act of the Bengal Council No. III of 1872 (an Act to amend the Calcutta Port Improvement Act, being Act V of 1870, passed by the Lieutenant-Governor of Bengal in Council, to amend Act XXII of 1855), that from that date wherever the words "fifty pounds" shall occur in sections 29 and 31 of Act XXII of 1855, shall be substituted the words "five pounds."

SECTION 4.

Rules for the Regulation of Vessels and Boats having Gunpowder or other Combustible Ammunition on board.

Vessels not to bring powder, &c., in excess of 5lb. above Budge-Budge.

1. Under the provisions of section 29, Act XXII of 1855, and section 5, Act III (B.C.) of 1872, all inward bound vessels carrying gunpowder, rockets, or other combustible ammunition, the total quantity of which is in excess of 5lb., are prohibited from proceeding above Budge-Budge, and the Master of any vessel lying within the port, or in the river above Budge-Budge, which shall have on board any gunpowder, rockets, or other combustible ammunition contrary to the provisions of these sections, shall be liable to a penalty not exceeding Rs. 200 for each offence, and the gunpowder, rockets, or other combustible ammunition found on board in excess of the prescribed quantity shall be forfeited.

Excess quantity to be landed at Moyapore.

2. All such gunpowder, rockets, or other combustible ammunition in excess of the prescribed quantity (5lb.) must be landed and deposited in the magazine at Moyapore.

Magazine-keeper responsible for safe custody.

3. The Magazine-keeper will take charge of the gunpowder, rockets, or other combustible ammunition immediately on its being conveyed to the shore at Moyapore, and will deposit it in the magazine.

Boat provided for landing and delivering ship's powder.

4. For the convenience of vessels having gunpowder on board, a properly constructed powder boat will be always in attendance off the magazine for landing and shipping powder. No charge will be made for the use of the boat for landing ship's powder, but the responsibility of the Keeper in respect of the powder will not commence until it is landed on the bank, and will cease as soon as it is shipped on board the boat. Every precaution will be taken to ensure the safety of the powder while in the boat, but the landing and shipping is at the risk of the vessel.

Boat may be used under certain restrictions for landing powder brought as cargo.

5. Vessels bringing consignments of trade or Government powder will be liable to pay landing charges for the use of the boat if the magazine boat is used, and should passing vessels require the use of the boat to put out or receive ship's powder, such vessels must be accommodated before the boat can be used to discharge powder or ammunition brought as cargo.

Signal to be hoisted by vessels requiring the services of the boat.

6. In order to avoid unnecessary detention, Masters of vessels requiring the use of the powder boat are required to hoist a flag at the foretopmast head on coming in sight of the magazine, as a signal to the Keeper to have boat and coolies in attendance.

Name of vessels to be marked on powder.

7. Masters of vessels are required to mark the names of their respective vessels on the barrels and packages of gunpowder previously to their being landed, and if not marked, they will not be received by the magazine boat.

Artificial lights not to be used.

8. Gunpowder shall not be landed or received into the magazine when artificial lights are required to be used.

Declaration to be signed by the Master of a vessel.

9. The Master of a vessel depositing gunpowder, rockets, or other combustible ammunition, shall, upon such gunpowder, rockets, or other combustible ammunition being deposited, make and sign a declaration in writing that there is not then, to his knowledge or belief on board such vessel, any gunpowder, rockets, or other combustible ammunition exceeding in all the weight of 5lb., and in case such Master shall knowingly make any false declaration with respect to any of the matters aforesaid, he shall be liable to a penalty not exceeding Rs. 200.

Receipt to be given by the Keeper.

10. The Magazine-keeper shall give to the Master or other person making the deposit a receipt for the number of packages, and he shall be accountable to such Master or other person for the redelivery of such packages.

Clerk in attendance to receive declaration and grant receipt.

11. A native clerk will be always in attendance in the powder boat, and will receive from the Master the declaration, and grant the receipt specified in the two foregoing rules.

12. If any vessel shall be prevented by stress of weather, or by being in distress, from landing or depositing such gunpowder, rockets, or other combustible ammunition in excess of the quantity allowed as aforesaid, such vessel may be permitted to come up to the lower limits of the port, but shall not proceed above Matea Brooze Ghât, and the Master of such vessel shall forthwith give notice to the Conservator of his having such gunpowder, rockets, or other combustible ammunition on board, and shall obey his directions relating to the same.

Vessels prevented by stress of weather or by being in distress from landing powder.

13. Masters of vessels outward bound, who may require gunpowder for their outward voyage, shall not take gunpowder on board in any part of the river above Budge-Budge, with the exception of a quantity not exceeding 5lb.

Powder in excess of 5lb. not to be taken on board outward bound vessels above Budge-Budge.

14. Masters of vessels who have deposited ship's powder at the magazine should inform the Deputy Conservator of the date on which the vessels will pass the magazine outward bound, and on receipt of this information orders will be forwarded to the Keeper to place the powder in the boat and send it off in such time as to avoid any detention of the outward bound vessel. Before delivering the powder the receipt granted by the Magazine-keeper must be given up.

Notice to be given of intended date of departure.

15. Delivery of powder into boats at the magazine for conveyance to Calcutta will only be granted upon orders issued from the office of the Commissioners.

Boats taking powder from magazine for storage in Calcutta.

16. No boat containing powder shall be allowed to proceed above Neemuck Mehal Ghât. All powder shall be landed at Neemuck Mehal Ghât, and no powder shall be landed at any other ghât, except with the special permission of the Commissioners.

Such powder to be landed at a particular place.

17. The two foregoing rules shall not apply to Government powder boats which will be allowed to enter the port and discharge their powder under the rules laid down by the Inspector-General of Ordnance.

Two foregoing rules not applicable to Government powder boat.

18. No smoking and no fire or light of any description shall be permitted on board of any boat having gunpowder, combustible ammunition, or inflammable oil on board.

Smoking, fire, and lights on board the boat prohibited.

19. No powder shall be landed within the port at any time when artificial light is required to be used.

No lights to be used.

Additional Rules to be observed by the Keeper of the Magazine and by the Commissioners' Servants.

20. The Keeper of the Magazine shall see that the foregoing rules are at all times enforced, and if any breach of these rules is brought to his knowledge, or if he has reason to suspect that a breach of the rules has been committed, he shall at once report the circumstances for the information of the Commissioners.

Duties of the Keeper to enforce foregoing rules and report violation of them.

21. He will keep a good look-out for inward bound vessels, and attend promptly to applications from Masters of outward bound vessels, so that the powder boat may be alongside ready to receive or deliver the ship's powder without causing any unnecessary detention.

Good look-out to be kept for ships wanting powder boat.

22. He shall make a monthly return showing the quantity of powder, rockets, or other combustible ammunition lying in the magazine at the commencement of the month, the quantity delivered, the quantity received, the quantity remaining in store at the end of the month, and the date when each package was deposited in the magazine.

Monthly returns.

23. He shall deliver, upon order received from the head office, consignments of powder in quantity not exceeding fifty pounds, and send the delivery orders as vouchers in support of the monthly statements. In the event of the consignees or owners of gunpowder, rockets, or other combustible ammunition failing to take delivery of the same within seven days after the date of the delivery order, such order shall be considered as cancelled, and another order will be necessary before delivery can be granted.

Delivery to boats of powder consigned to Calcutta.

24. He shall be careful to report any infringement of these rules by the *employés* at the magazine, and will specially see that no fire or artificial light is used for any purpose within the walls of the magazine enclosure. No powder shall be received into or delivered from the magazine after dark.

Care as to fires and lights.

25. He shall take care that no smoking and no fire or light shall be allowed on board the magazine powder boat during the time that any powder is on board.

Smoking and the use of fires and lights prohibited on board the magazine powder boat.

26. During the time that powder is being landed or shipped at the magazine, he shall take care that no fires are lighted for cooking purposes within 150 yards of the boat.

27. He shall report any repairs which may be necessary to the magazine buildings, and will be held responsible if any damage occurs owing to neglect in furnishing such report.

Assistant Harbour Master to examine magazine receipt granted to inward bound vessels.

28. On an Assistant Harbour Master taking charge of an inward bound vessel, he will examine the receipt granted by the Magazine-keeper, and in case no such receipt is produced, the Master shall then sign and deliver to the Assistant Harbour Master the declaration specified in Rule No. 9.

REVENUE DEPARTMENT.

REVENUE.

Calcutta, the 28th January 1873.

1. COLONEL J. C. HAUGHTON, C.S.I., Commissioner of Cooch Behar, having been forced by ill-health to leave the country, notwithstanding that the Secretary of State had agreed to an extension of his service in consequence of his merits, the Lieutenant-Governor deems it right to express the thanks of Government to this distinguished officer for his very long and meritorious services to the Government of Bengal.

2. Colonel Haughton's services in Cabul, where severe wounds caused him the loss of an arm, were concluded before he joined the North-West Frontier Agency under this Government in the year 1844. Since that year he has, with intervals of employment under the Government of India at Port Blair and elsewhere, served in the wilder and more remote districts of Bengal from Sumbulpore and Singbhoom on the west, to Bhootan on the north and Upper Assam on the extreme east. In times of peace he has served the Government well, and has ever shown the fullest consideration for the welfare and the wants of all classes of people under his administration. He has always exerted his influence in behalf of the wilder races. He has contributed much to the pacific solution of questions regarding the treatment of the mountain tribes which inhabit wilds on both sides of the Berhampooter valley: and his loss will be felt in future discussions on Bhootan frontier affairs, or possible trade relations with high Asia.

3. In time of war and trouble on the British frontier towards Bhootan, in the Garrow Hills, in the Cossyah and Jynteah Hills, he has personally done the very greatest service in advising or directing the operations, and by raising levies of hillmen for frontier police work or for carriage of material. His last piece of service has been to superintend to a most successful conclusion an expedition undertaken this cold season for the subjugation of the hitherto independent Garrows who have so long harassed our districts. He has managed with success the great estate of the infant Maharajah of Cooch Behar.

4. The Lieutenant-Governor would tender his thanks to Colonel Haughton for the good work he has done as a frontier officer, district officer, and Commissioner during the last thirty years, and will bring them prominently to the notice of the Government of India and the Secretary of State.

Besides the information given above, the following particulars may be useful:—

Dates on which the fortnightly Steamers of the Peninsular and Oriental Steam Navigation Company are timed to leave the Sandheads (Calcutta).

Friday,	the 3rd	January 1873.	Friday,	the 28th	March 1873.
„	the 17th	„ „	„	the 11th	April „
„	the 31st	„ „	„	the 25th	„ „
„	the 14th	February „	Wednesday,	the 7th	May „
„	the 28th	„ „	„	the 21st	„ „
„	the 14th	March „	„	the 4th	June „

Mails for the above-mentioned Steamers are made up in Calcutta on days notified locally from time to time (ordinarily in the evening, two days prior to the date of starting from the Sandheads) for *Ceylon*.

The French Mail Steamers starting from Calcutta once every four weeks commencing with 21st January (during the monsoon season 2 days earlier, commencing with 11th May) proceed to Madras, Pondicherry, Galle, Singapore, Batavia, Saigon, Hong-Kong, Shanghai, Yokohama, Aden, Suez, Europe, Mahé (Seychelles), Réunion, and Mauritius. The British India Steam Navigation Company have also contract lines from Calcutta fortnightly to Chittagong and Akyab, fortnightly to Akyab, Rangoon, and Moulmein, fortnightly to Rangoon and Moulmein (with a continuation once every four weeks to the *Straits*), once in every four weeks to Port Blair, and fortnightly to Bombay and ports on the East and West Coasts. The same Company have a line once every four weeks between Madras and Rangoon, and a weekly line of Steamers from Bombay to Kurrachee, with a continuation once a fortnight to the Persian Gulf.

The *Opium Steamers*, which leave Calcutta monthly for *Penang*, *Singapore*, and *Hong-Kong*, have not been included, as the dates of starting are not fixed. They leave ordinarily about 12 days after each Government opium sale, and these sales have been advertised for the current year as about 6th January, 5th February, 3rd March, 3rd April, 5th May, 4th June, 3rd July, 4th August, 4th September, 9th October, 6th November, and 4th December. These Steamers proceed direct to the Straits and China, thus avoiding the circuit *vid Galle*, and reaching Hong-Kong in *about* 15 days from Calcutta. Correspondence for the *United States of America*, when marked *vid* Hong-Kong, can be sent by these Steamers.

Letter mails forwarded *viâ* Bombay for transmission by Peninsular and Oriental Company's Steamers are closed in Calcutta 3 days earlier than in Bombay. Those forwarded *viâ* Bombay for transmission by British India Steam Navigation Company's vessels to the Persian Gulf, &c., are closed in Calcutta 4 days earlier, as in these cases the Steamers leave Bombay earlier in the day.

PART IV.

Bills of the Bengal Council.

GOVERNMENT OF BENGAL.

LEGISLATIVE DEPARTMENT.

NOTIFICATION.

A BILL to amend and consolidate the law relating to Municipalities was passed by the Council of the Lieutenant-Governor of Bengal for making Laws and Regulations, on the 27th of July last, and received the assent of the Lieutenant-Governor on the 1st August following.

The Lieutenant-Governor now notifies that His Excellency the Viceroy and Governor-General, in the exercise of the power vested in him by law, has been pleased to withhold his assent to the said Bill. In accordance with the requirements of Section 40 of the Indian Council's Act of 1861, the Viceroy has signified to the Lieutenant-Governor, in writing, his reasons for so withholding his assent, and the Lieutenant-Governor is pleased to publish for general information the said reasons, together with the Bill.

No. 57, dated Fort William, the 31st January 1873.

From—WHITLEY STOKES, Esq., Secy. to the Govt. of India, Legislative Dept.,
To—The Asst. Secy. to the Govt. of Bengal, Legislative Dept.

I AM directed by His Excellency the Viceroy and Governor-General to acknowledge the receipt of Mr. Bernard's letter of the 30th of October last, enclosing a

copy of the Bill to amend and consolidate the law relating to Municipalties, which was passed by the Council of the Lieutenant-Governor of Bengal for the purpose of making Laws and Regulations, on the 27th of July last, and received the assent of His Honor on the 1st of August.

2. The Bill has received His Excellency's most careful consideration. He has postponed his decision for some time, in order that he might make himself thoroughly acquainted both with the provisions of the existing law and with the proposed changes, and I am directed to express his regret that he feels it to be his duty to withhold his assent from the Bill. In accordance with the 40th section of the Indian Council's Act, 1861, I am directed to signify, for the information of His Honor the Lieutenant-Governor, the reasons which have determined His Excellency to take this course.

3. The Bill consolidates and amends the Acts relating to Municipalities in Bengal, and contains, in addition, new provisions, of which the following are the most important:—

Power is given to the Lieutenant-Governor to make regulations under which, in all Municipalities, members may be elected to form a portion of the governing body.

Taxes upon trades and callings, processions, articles, ferries, roads and navigable channels—and boats moored, are made legal in first and second class Municipalities, subject to the sanction of the Lieutenant-Governor.

Provision for elementary education out of Municipal Funds may be made obligatory upon first and second class Municipalities.

The purposes to which Municipal taxation may be applied, in the first and second class Municipalities, are extended to include the support or relief of the poor in times of exceptional distress and scarcity.

A revised code of conservancy regulations is enacted, which, with the sanction of the Lieutenant-Governor, may be brought into operation in first and second class Municipalities.

In first and second class Municipalities the management of the police is vested in the Chairman of the Municipal Commissioners, subject to the general control and direction of the Magistrate of the district; and the action of the Municipal police is confined to the area of the Municipality.

Provision is made for the creation of third class Municipalities in the rural districts; the tax to be levied in these third class Municipalities is made applicable to conservancy purposes and to education; and the arrangement made in 1870 with respect to Chakran lands is altered.

4. His Excellency is of opinion that there are valid objections to several of these provisions.

5. His Excellency cannot give his assent to those portions of the Bill which allow the provision of elementary education to be made obligatory upon first and second-class Municipalities. It appears to him that the proposed alteration of the law relating to the police requires careful consideration by the Government of India before it can with propriety be introduced into Bengal. He does not concur in the proposal to apply Municipal funds to the relief to the poor even in exceptional cases, for he considers that such cases should be met by a contribution from the Provincial or Imperial Revenues. In consequence of reports which have recently been received of the operation of Act VI of 1870, he entertains great doubts as to the suitability of

the powers given to Panchâyats under that Act; he thinks therefore, that further experience is required before the functions of such Panchâyats are increased, or Municipal Institutions further extended to the rural population.

6. But apart from these objections to particular portions of the Bill, His Excellency can only regard the whole measure as calculated to increase Municipal taxation in Bengal, and he believes that such an increase is unnecessary and inexpedient at the present time. The reports which the Government of India have received from local officers in Bengal since the passing of the Bill, and which were not before the Lieutenant-Governor when the Bill received His Honor's assent, support the opinion which His Excellency entertains upon this subject.

7. It is true that many of the provisions of the Bill to which His Excellency objects are permissive, and depend for their introduction upon the exercise of the powers committed to the Lieutenant-Governor of Bengal. The present Lieutenant-Governor has expressed his intention to use with great caution and reserve the powers which would be placed in his hands; and His Excellency cordially agrees with the sentiments expressed by His Honor that it is unwise "to push too far sanitary and other regulations which may effect some future good at the cost of great individual vexation," and that in introducing such regulations we must recollect "not only that our knowledge of these subjects is yet imperfect, but also that much regard must be had to the habits and feelings of the people which, even in Europe, and still more in this country, are opposed to great innovations in matters affecting their daily lives in their homes and neighbourhoods:" but, while entirely concurring in these views, His Excellency must, in dealing with the Bill, look rather to the powers which it confers than to the extent to which for the present it is proposed to make use of those powers. If he objects to any material provisions contained in a proposed law, for which his assent is required under the Indian Council's Act of 1861, it is not sufficient for His Excellency to be informed that the officer in whose discretion their introduction is vested considers that action should be suspended or deferred. No feeling of confidence in the discretion of any one man in whose power the administration of a law may for the time being be placed, would, in His Excellency's opinion, justify him in assenting to a measure to any essential provisions of which, if fully brought into operation, he entertains such serious objections as he does to some of those which are contained in the Bengal Municipalities' Bill.

8. While, however, His Excellency has felt it to be his duty, for the above reasons, to withhold his assent from the Bill, he fully recognizes the fact that it contains many useful amendments of the existing law with respect to Municipalities in Bengal; and the discussions which have taken place in the Legislative Council of Bengal have satisfied him that some changes in that law might be made with advantage.

9. His Excellency cordially concurs with the opinion expressed by the Lieutenant-Governor that "he had rather see a little done voluntarily by the people themselves through their representatives than a great deal done under pressure from above," and that "his view is to prefer a little done voluntarily to a great deal done unwillingly and in a discontented spirit." His Excellency believes that, under Act VI of 1868 and the District Road Cess Act of 1870, sufficient powers now exist for the introduction into Bengal of a system under which Municipal and local affairs may gradually come to be administered by bodies in which the people are represented, and any proposal which the Legislative Council of Bengal may make to amend

Act III of 1864 in the same direction would command His Excellency's favourable consideration.

10. It might also, in His Excellency's opinion, be desirable to amend the present law, so as to enable Municipalities under Acts III of 1864 and VI of 1868 voluntarily to contribute in aid of education within their districts.

11. While His Excellency regrets that the great labour which has been bestowed by His Honor the Lieutenant-Governor and the Legislative Council of Bengal upon the preparation of this Bill will not produce any immediate results, it is not his desire to interpose an obstacle to improvements in the Municipal law of Bengal, provided that such improvements are not accompained by any material increase of taxation, or by changes so extensive as those which are embodied in the present Bill.

We have provided for the payment of a portion of the expenses by a first or second class municipality which is benefited by the work executed.

We have preserved the system, which has existed for many years, for recovering the cost of maintaining the Gunduk embankments in the Sarun district.

We have provided for the assignment to a certain estate or tenure of lakhiraj lands which are not included within the local limits of any estate or tenure.

We have given power to the Magistrate to remove an embankment or obstruction illegally constructed, if the person who constructed it fails to remove it within a fixed time.

We have provided for the extension by Government of the Hooghly and Burdwan Drainage Act to any scheme proposed for similar objects of which the Lieutenant-Governor may approve.

We have confined our attention to the amendments which were laid before the Council by the Hon'ble V. H. Schalch, and report upon them alone.

7. The Engineer may construct any sluice or watercourse, or effect any alteration in any public watercourse, when such construction or alteration may be required for the improvement of the health or for the protection of any village or cultivable land.

If the Engineer agree in opinion with the Collector, the Collector shall pass an order accordingly in regard to the execution of the aforesaid works, and notice of such order shall be served on the persons appearing in pursuance of the proclamation. If he differ from the Collector, the case shall be referred to the Commissioner of Revenue, who shall pass such orders thereon as he may deem fit.

PART IV.

Procedure in cases of imminent danger to life or property.

Proceedings in emergencies.

23. Whenever the Engineer shall be of opinion that the proceedings commenced by notice under Part III of this Act would cause delay in the exercise of any of the powers by Sections 5, 6, and 7 conferred upon him, likely to be attended with grave and imminent danger to life or property, he may forthwith commence to exercise such powers without reference to the Collector. Provided that he shall forthwith inform the Collector thereof and of the nature of the danger, and give notice of his intention to continue to exercise such powers. The Collector, in any case where he shall see fit, may direct the Engineer to suspend further action until after the completion of such proceedings and enquiries. The Engineer, as soon as he conveniently may, after giving such notice of his intention, shall give notice in writing to the Collector, together with plans, specifications, estimates, and maps, as provided in section 18, appending thereto a statement that the work mentioned therein has already been commenced, and thereupon such proceedings and enquiries shall be had as in and by Part III of this Act are directed.

Provided that he shall, so soon thereafter as he conveniently may, give notice thereof to the Collector.

PART V.

Acquisition of lands.

Acquisition of land.

28. Whenever in the course of proceedings under this Act, save in those cases in which the Engineer has proceeded under the provisions of Part IV, it appears that land is required for any of the purposes thereof, such purpose shall be deemed to be a public purpose within the meaning of The Land Acquisition Act, 1870, and such proceedings shall be forthwith taken as are directed by the said Act or by any other law for the time being governing the acquisition of lands for public purposes.

When land taken, notice to be published.

29. Whenever any land shall have been taken or used under the provisions of Part IV, the Collector shall, unless he shall direct the Engineer to suspend further action, cause public notice in form in Schedule (D) to be given at convenient places on or near the land so taken, stating that Government has taken possession of the land, and that claims to compensation for all interests in such land shall be made to him. Thereupon the land shall vest absolutely in the Government free from all incumbrances, subject, however, to the claims for compensation to be ascertained in manner as in this Part is provided.

30. Such notice shall state the particulars of the land so taken, and shall require all persons interested in the land to appear personally or by agent before the Collector at a time and place therein mentioned (such time not being earlier than fifteen days after the date of publication of the notice), and to state the nature of their respective interests in the land, and the amount and particulars of their claims to compensation for such interest.

Further notice to be served on certain parties.

31. The Collector shall also serve notice to the same effect on the occupier (if any) of such land, and on all such persons known or believed to be interested therein, or to be entitled to act for persons so interested, as reside, or have agents authorized to receive service on their behalf, within the revenue district in which the land is situate.

Proceedings after notice.

32. After service of such notices proceedings shall be had and taken to determine the amount of compensation to be payable in respect of such land, and all the provisions contained in Sections 10 to 15, 18 to 34, 36, 37, 38, 42, 51, 55, 58 (as amended by Act IX of 1871), and 59 of the Land Acquisition Act, 1870, shall be applicable to such proceedings.

Compensation for consequential damage.

33. Whenever any land other than land required or taken by the Engineer, or any right of fishery, right of drainage, right of the use of water, or other right or property, shall have been injuriously affected by the due exercise of the powers or provisions of this Act, the person in whom such right is vested may prefer a claim by petition to the Collector for compensation.

Application to be made within a year.

34. No claim shall be entertained which shall be made later than one year next after the completion of the work by which such right is injuriously affected.

Procedure for such compensation.

35. Subject to the provisions of the next preceding section, the Collector shall proceed to enquire into each claim made, and to determine the amount of compensation, if any, which should be made, and the person to whom the same should be payable, and the Collector, on the receipt of such claim, shall fix a time and place for hearing such claim, and Sections 9 to 15, 18 to 23, 26 to 34, 36, 37, 38, 51, 54, 55, 58 (as amended by Act IX of 1871), and 59 of the said Land Acquisition Act, 1870, shall apply to enquiries into such rights as aforesaid, or the exercise of such rights as aforesaid, and to the awards of compensation for injuries to such rights as though they were rights in and awards of compensation for land needed for a public purpose.

Matters to be considered in determining compensation.

36. In determining the amount of compensation to be awarded in such cases, the Judge and Assessors shall take into consideration—

First, the market value of the property injuriously affected at the time of acquiring the land;

Secondly, the damage sustained by the claimant by reason of such acquisition injuriously affecting the property;

Thirdly, the consequent diminution of the market value of the property injuriously affected at the time of acquiring the land.

Matters not to be considered in determining compensation.

But the Judge or Assessors shall not take into consideration—

First, the degree of urgency which has led to the acquisition;

Secondly, any damage sustained by the claimant, which, if caused by a private person, would not in any suit instituted against such person justify a decree for damages.

37. If the Judge differs from both the assessors as to the amount of compensation under the provisions contained in section 32 or section 35, he shall pronounce his decision, and the Collector or the person interested (as the case may be) may appeal therefrom to the Court of the District Judge.

Determination of proportions.

38. When the amount of compensation has been settled by the Court, under the provisions contained in section 32 or section 35, and there is any dispute as to the apportionment thereof, or when a reference to the Court has been made, the Judge sitting alone shall decide the proportions in which the persons interested are entitled to share in such amount.

Every appeal under the two last preceding sections shall be presented within the time and in manner provided by the Code of Civil Procedure for regular appeals in suits.

Payment of compensation to whom made.

39. Payment of the compensation shall be made by the Collector according to the award to the persons named therein, or in the case of an appeal according to the decision on such appeal. Provided that nothing herein contained shall affect the liability of any person who may receive the whole or any part of any compensation awarded under this Act, to pay the same to the person lawfully entitled thereto.

Land, &c., taken possession of to vest in Secretary of State.

40. All land, earth, pathways, sluices, gates, bermes, hedges, belonging to or forming part of any embankment or watercourse, of which charge has been or may hereafter be taken by the officers of Government, shall vest in the Secretary of State for India, and shall be held by him on behalf of the Government in respect of the embankments mentioned in schedule E annexed to this Act, and in respect of other works on behalf of the persons interested in the lands to be protected or benefited by such embankment or watercourse, subject to the provisions of section 69; and all monies received on account of such lands shall be payable to the Engineer and credited to the cost of the construction and maintenance of such works respectively.

PART VI.

COST OF WORKS, PROCEEDINGS, &c.

1. *Ascertainment thereof.*

Embankments in schedule E.

41. The provisions in this Part contained shall not apply to any of the embankments mentioned in Schedule (E) to this Act annexed, save so far as any works or repairs are executed therein or in relation thereto under the provisions of Sections 10 and 13 of this Act respectively. All sums payable in respect of any works or repairs executed therein or in relation thereto, except under the provisions of the said sections respectively, shall be paid by the local Government. If at any time after the passing of this Act the Collector, on enquiry made by him as far as possible in accordance with the provisions of Part III of this Act, shall find that it is unnecessary for the public interests to retain any embankment mentioned in Schedule (E), the Lieutenant-Governor may direct that the same shall be no longer included in the said Schedule. Provided that the same shall be restored to the said Schedule if on any subsequent enquiry similarly conducted it shall be found necessary so to do.

Alteration of schedule.

Estimate and specifications to be prepared.

42. Specifications of any works or repairs to be executed under the provisions of this Act, and estimates of the expenses to be incurred therein or relating thereto, including such proportion of establishment charges as the Lieutenant-Governor shall direct, shall be prepared by the Engineer as soon after the month of October in each year as may be practicable. And whenever it appears that the actual expenses to be incurred will exceed the amount mentioned in the said estimates by one-tenth, the Engineer shall forthwith prepare further estimates, and if necessary, further specifications. Copies of all specifications and estimates shall be transmitted to the office of the Collector, together with vernacular translations thereof, or such abstracts thereof as the Lieutenant-Governor may from time to time direct, and may be examined by any person interested in such works or repairs. Notice of the receipt of specifications and estimates shall be served for all estates chargeable for or likely to be affected by the said works or repairs; and should any objection in regard to the amount of such expenses be preferred by any such person within a period of one month from the date of such notice, the Collector shall communicate the objection, with his own opinion thereupon, to the Engineer, who shall pass such orders as may appear to him reasonable and proper. Such order shall be subject in any case to an appeal by the person making such objection, and to a reference by the Collector, to the Commissioner whose decision shall be final.

Preparation and settlement of accounts.

43. The accounts of the actual expense incurred in executing any works or repairs shall be prepared as soon as possible after the completion thereof. The Engineer shall sign a certificate stating the true amount of all such expenses and the names of the estates chargeable for and of the estates and villages affected by the said works and repairs. Copies of the said accounts and certificates shall be forwarded to the office of the Collector, and may be there examined by any person interested. Notice of the receipt thereof shall be served for the said estates and villages and such others as in the opinion of the Collector are liable to contribute to the payment of the said amount; and if, within thirty days from the service of such notice, any interested person shall object to the accounts on the ground either that the work charged for has not been performed, or that the whole sum charged has not been expended, or that the rates of charge are higher than those mentioned in the estimates, the Collector shall enquire into such objection, and may pass any order thereon subject in any case to an appeal by the objector or to a reference

by the Engineer to the Commissioner of Division whose decision shall be final.

Total sum payable.

44. The Collector shall add to the amount appearing in the said certificate all sums which have been paid or have become payable in respect of compensation, costs and expenses under and incidental to any proceedings taken or directed to be taken under Parts III and V of this Act, including costs of all surveys and plans. He shall thereupon make an order specifying the total sum found payable, and in respect of works done under sections 9, 12, and 13, the persons by whom, or in respect of other works the estates in respect of which, the same is payable to him. Provided that the Collector may, if he thinks fit, order that a portion of the total sum payable shall be paid by any municipality of the first or second class which is in his opinion benefited or protected by the works or repairs executed. If the order is made in respect of work done under sections 9, 12, or 13, the same shall forthwith be served upon the party or parties liable to pay; otherwise the Collector shall proceed under the provisions in the next chapter contained. Interest may be charged upon any sum paid as compensation from the date of payment thereof at such rate, not exceeding 5 per cent. per annum, as the Lieutenant-Governor may direct.

Parties liable to pay.

45. The said total sum, save so far as is otherwise provided in this Act, shall be paid to the Collector by the zemindars of the estates in which are situated the lands benefited or protected by the repairs or works executed. Provided that where any specific sum has hitherto been annually demanded in respect of any embankment not included in schedule E, and when the said embankment is at the time of this Act coming into operation being maintained by Government, then such special payments shall after the passing of this Act thenceforth cease and determine.

Every zemindar, who is liable under this rule for the payment of the whole or a portion of such total sum, shall be entitled to recover from the proprietor of every tenure which is declared to be a part of his estate, the sum apportioned to such tenure by the Collector, under the provisions of section 50. And similarly, every proprietor shall be entitled to recover from the proprietor of any subordinate tenure, which is declared to be a part of his tenure, the sum apportioned to such subordinate tenure by the Collector, under the said provisions.

---

2. *Apportionment thereof.*

Notice to be given before apportionment.

46. So soon as the total sum payable as aforesaid has been ascertained, the Collector shall cause a notice to be served for every one of the said estates and villages mentioned in section 43. Every such notice shall specify the estates and villages aforesaid, and that an enquiry will be held at a day and place therein named for the purpose of apportioning amongst the zemindars and proprietors the said total sum, with interest and the costs of apportionment.

Whenever it has been ordered by the Collector that a municipality is liable for a portion of the said total sum, the notice shall contain a statement to that effect, and shall be served on the chairman of the municipality.

Mode of enquiry as to the proportion chargeable to each estate.

47. On the day fixed in the said notice, which shall not be less than thirty days later than the date of any service of such notice, the Collector shall proceed to make the said enquiry. In making this enquiry he shall receive such evidence as may be tendered by, or on behalf of, the said zemindars and proprietors, and by, or on behalf of, any other persons who may claim to be interested therein.

Names of proprietors.

48. In any such enquiry the Collector shall take down in writing the names of all persons who may claim, or who may be alleged by any party interested, to be proprietors of tenures within any of the estates mentioned in such notice. In default of appearance of any such person, the Collector shall issue and serve a notice calling on him to appear at a date and place therein mentioned, and to show cause against being included in the order of apportionment to be made therein, and shall adjourn the enquiry till such date.

Apportionment amongst zemindars.

49. At such or any subsequently adjourned enquiry, the Collector, if there be only one estate liable, shall charge the zemindar thereof with the total amount payable; and if there be two or more estates, he shall apportion the same amongst the zemindars thereof, rateably in the proportion of the respective benefits derived by such estates from such works or repairs; or in proportion of the areas of the lands benefited or protected thereby, and comprised within such estates respectively; or with the sanction of the Local Government in proportion to the amount of revenue respectively payable for such estates, if before the passing of this Act such proportion has been usually adopted.

Provided that the said total amount payable in respect of the embankments on the right bank of the river Gunduk shall be chargeable, in accordance with the custom in force for such estates, to the zemindars of all the estates situated in the district of Sarun, in proportion to the amount of revenue respectively payable for such estates.

Amongst proprietors.

50. The Collector shall, in like manner, apportion, except in respect of the said Gunduk embankments, the amount payable in respect of each estate amongst all the tenures therein, rateably in the proportion of benefit so received or area so benefited or protected, first deducting therefrom such sum as on the like principle of proportion is payable in respect of such portion of the estate as is not included within any tenure.

51. The Collector shall likewise determine the amount payable in respect of any municipality rateably in proportion to the benefit derived by it from the work or repair executed, and the remaining sum shall be apportioned as directed in the two last preceding sections. Provided that no rate-payer in such municipality shall be required to pay any portion of such remaining sum in respect of any tenure which is situated within the limits of such municipality.

52. All lands held without payment of rent, not being estates entered in the register of revenue-free tenures, shall, for the purposes of this Act, be deemed to form a part of the tenure within the local boundaries of which they are included; and, if they are not included within the local boundaries of any tenure, then to be a part of the estate within the local boundaries of which they are included; and, if they are not included within the local boundaries of any estate, then to be a part of such conterminous estate as the Collector, in whose district such conterminous estate is situated, shall, by an order under his seal and signature, declare.

Payable by instalments.

53. The amount apportioned to any estate, tenure, or municipality, shall be payable in equal instalments on such days as the Lieutenant-Governor shall direct, provided that no instalment shall exceed four annas for every acre of land in respect of which the same is payable, and that not more than four instalments shall be payable in any one year. And provided also in the case of a municipality that the instalment payable in any one year shall not exceed ten rupees per centum of the total income of such municipality during the year last preceding.

Interest.

Interest shall be charged on the unpaid portion of the said amount from the date of the same becoming due until payment thereof at such rate, not exceeding five per cent. per annum, as the Lieutenant-Governor shall from time to time determine.

Final order of apportionment.

54. On the completion of the apportionment the Collector shall make an order specifying the estates and tenures, and the several sums payable in respect thereof, the instalments of such sums and the dates on which the same are payable.

3. *Recovery thereof.*

Orders for payment.

55. The Collector shall, within thirty days from the final order of apportionment, make and serve for every estate therein mentioned an order, stating the amount with interest due in respect thereof and that the same is payable to him, and the date or dates at which such amount or instalments thereof shall become payable to him.

Recovery from zemindars.

56. If such sum or any instalment thereof be not, pursuant to the said order, paid, the same with interest shall be recoverable as arrears of a demand under the provisions of Bengal Act VII of 1868 (*to make further provision for the recovery of arrears of land revenue and public demands recoverable as arrears of land revenue.*)

From proprietors.

57. Every zemindar or proprietor to whom any sum or instalment thereof is payable under the said order, may recover the same with interest as aforesaid in the manner provided for the recovery of arrears of rent in respect of putnee tenures by the provisions of clauses 2 and 3 of section 8, sections 9, 10, 14, 15, and clauses 1, 2, and 3 of section 17, of Regulation VIII of 1819, as amended by Bengal Act VIII of 1865; provided that the right or interest of any person holding from the proprietor of such tenure shall not be affected by any sale held under these provisions. A copy of the said order, certified under the name and seal of the Collector, shall be received in any suit for the recovery of the same as conclusive evidence that the amount was apportioned as therein mentioned, but shall not be evidence as to the existence of, or as to any right in the tenure to which the said amount has been apportioned.

It shall be lawful for the commissioners of any municipality to pay to the Collector, on the dates fixed by the order passed under section 54, the sum which is declared in such order to be payable in respect of such municipality; and for the purpose of realizing the amount so disbursed to increase the rate of any tax leviable therein.

Declaration to be signed by the Master of a vessel.

9. The Master of a vessel depositing gunpowder, rockets, or other combustible ammunition, shall, upon such gunpowder, rockets, or other combustible ammunition being deposited, make and sign a declaration in writing that there is not then, to his knowledge or belief on board such vessel, any gunpowder, rockets, or other combustible ammunition exceeding in all the weight of 5lb., and in case such Master shall knowingly make any false declaration with respect to any of the matters aforesaid, he shall be liable to a penalty not exceeding Rs. 200.

12. If any vessel shall be prevented by stress of weather, or by being in distress, from landing or depositing such gunpowder, rockets, or other combustible ammunition in excess of the quantity allowed as aforesaid, such vessel may be permitted to come up to the lower limits of the port, but shall not proceed above Matea Brooze Ghât, and the Master of such vessel shall forthwith give notice to the Conservator of his having such gunpowder, rockets, or other combustible ammunition on board, and shall obey his directions relating to the same.

Vessels prevented by stress of weather or by being in distress from landing powder.

13. Masters of vessels outward bound, who may require gunpowder for their outward voyage, shall not take gunpowder on board in any part of the river above Budge-Budge, with the exception of a quantity not exceeding 5lb.

Before delivering the powder the receipt granted by the Magazine-keeper must be given up.

Notice to be given of intended date of departure.

15. Delivery of powder into boats at the magazine for conveyance to Calcutta will only be granted upon orders issued from the office of the Commissioners.

Boats taking powder from magazine for storage in Calcutta.

16. No boat containing powder shall be allowed to proceed above Neemuck Mehal Ghât. All powder shall be landed at Neemuck Mehal Ghât, and no powder shall be landed at any other ghât, except with the special permission of the Commissioners.

Such powder to be landed at a particular place.

17. The two foregoing rules shall not apply to Government powder boats which will be allowed to enter the port and discharge their powder under the rules laid down by the Inspector-General of Ordnance.

Two foregoing rules not applicable to Government powder boat.

18. No smoking and no fire or light of any description shall be permitted on board of any boat having gunpowder, combustible ammunition, or inflammable oil on board.

Smoking, fire, and lights on board the boat prohibited.

No lights to be used.

Additional Rules to be observed by the Keeper of the Magazine and by the Commissioners' Servants.

20. Duties of the Keeper to enforce foregoing rules and report violation of them.

21. He will keep a good look-out for inward bound vessels, and attend promptly to applications from Masters of outward bound vessels, so that the powder boat may be alongside ready to receive or deliver the ship's powder without causing any unnecessary detention.

Good look-out to be kept for ships wanting powder boat.

22. He shall make a monthly return showing the quantity of powder, rockets, or other combustible ammunition lying in the magazine at the commencement of the month, the quantity delivered, the quantity received, the quantity remaining in store at the end of the month, and the date when each package was deposited in the magazine.

23. He shall deliver, upon order received from the head office, consignments of powder in quantity not exceeding fifty pounds, and send the delivery orders as vouchers in support of the monthly statements. In the event of the consignees or owners of gunpowder, rockets, or other combustible ammunition failing to take delivery of the same within seven days after the date of the delivery order, such order shall be considered as cancelled, and another order will be necessary before delivery can be granted.

Delivery to boats of powder consigned to Calcutta.

24. He shall be careful to report any infringement of these rules by the *employés* at the magazine, and will specially see that no fire or artificial light is used for any purpose within the walls of the magazine enclosure. (*RESOLUTION.*)

REVENUE DEPARTMENT.

REVENUE.

Calcutta, the 28th January 1873.

1. COLONEL J. C. HAUGHTON, C.S.I., Commissioner of Cooch Behar, having been forced by ill-health to leave the country, notwithstanding that the Secretary of State had agreed to an extension of his service in consequence of his merits, the Lieutenant-Governor deems it right to express the thanks of Government to this distinguished officer for his very long and meritorious services to the Government of Bengal.

2. Colonel Haughton's services in Cabul, where severe wounds caused him the loss of an arm, were concluded before he joined the North-West Frontier Agency under this Government in the year 1844. Since that year he has, with intervals of employment under the Government of India at Port Blair and elsewhere, served in the wilder and more remote districts of Bengal from Sumbulpore and Singbhoom on the west, to Bhootan on the north and Upper Assam on the extreme east. In times of peace he has served the Government well, and has ever shown the fullest consideration for the welfare and the wants of all classes of people under his administration. He has always exerted his influence in behalf of the wilder races. He has contributed much to the pacific solution of questions regarding the treatment of the mountain tribes which inhabit wilds on both sides of the Berhampooter valley: and his loss will be felt in future discussions on Bhootan frontier affairs, or possible trade relations with high Asia.

3. In time of war and trouble on the British frontier towards Bhootan, in the Garrow Hills, in the Cossyah and Jynteah Hills, he has personally done the very greatest service in advising or directing the operations, and by raising levies of hillmen for frontier police work or for carriage of material. His last piece of service has been to superintend to a most successful conclusion an expedition undertaken this cold season for the subjugation of the hitherto independent Garrows who have so long harassed our districts. He has managed with success the great estate of the infant Maharajah of Cooch Behar.

4. The Lieutenant-Governor would tender his thanks to Colonel Haughton for the good work he has done as a frontier officer, district officer, and Commissioner during the last thirty years, and will bring them prominently to the notice of the Government of India and the Secretary of State.

No. 2.

To all Civil Courts,—(dated Calcutta, the 16th January 1873).

The attention of all Civil Courts of every grade is drawn to the subject of the annexed Circular which has been issued by the Board of Revenue to all Revenue Officers, with reference to the risk of fraud arising from the facility with which adhesive stamps may be forged, and the consequent necessity for special examination by every head of a Revenue Court of such stamps presented in payment of Court Fees.

HIGH COURT, &c.,
CIVIL SIDE.
Present
The Hon'ble SIR R. COUCH, *Kt.*, *Chief Justice.*
" LOUIS S JACKSON,
" F. A. GLOVER,
" W. AINSLIE,
Judges of the Court.

2. The Court desire that Judicial Officers of all grades should exercise in this matter such vigilance as they may; the Court also think it desirable that an examination by experienced Revenue Officers should be occasionally made in respect of the stamps affixed to documents filed in Civil Courts, and on this point the Board of Revenue has been addressed.

By order of the High Court,

(Signed) W. M. SOUTTAR,
Offg. Registrar.

CIRCULAR ORDER.

Certain attempts to forge the adhesive stamps lately issued for the purpose of denoting Court Fees have been recently brought to light, and the Member in charge now calls the earnest attention of all District Officers to the risk of fraud arising from the greater facility with which such stamps can be forged in comparison with impressed stamps.

Stamps.
A. MONEY, ESQ., C.B.

Large quantities of these adhesive stamps are daily presented in payment of process fees, and very seldom come under the actual observation of the head of a Revenue Court. Attempts to use forged stamps are more likely, therefore, to occur in connection with this mode of using stamps than with any other. Every head of a Court in which such fees are paid by stamps is desired in future to call for, from time to time papers which have been so stamped, and to satisfy himself thoroughly by personal examination that the stamps used in his Court are genuine.

Board of Revenue, L. P.,

Superintendent.

CIVIL SIDE.
Present:
The Hon'ble *Sir* R. COUCH, *Kt.*, *Chief Justice.*
" LOUIS S. JACKSON,
" F. A GLOVER,
" W AINSLIE,
Judges of the Court.

1st, what books already exist in his own Office as well as in that of the District Officer; *2ndly*, what possible subscriptions may be expected at each sudder station towards the object in contemplation; and *3rdly* what, so far as can be estimated, would be the probable cost to Government at each station of maintaining a Bar Library.

THE EMBANKMENTS AND WATER-COURSES BILL.

THE following Report of the Select Committee appointed to consider amendments referred to them in the Bill to amend the law relating to Embankments and Water-courses, together with the Bill as amended by the Committee, is, by order of the President, published for general information :—

We, the undersigned, the Members of the select committee of the Council of the Lieutenant-Governor of Bengal for the purpose of making laws and regulations, to which the Bill to amend the law relating to embankments and water-courses was referred for the purpose of considering the amendments proposed by the Hon'ble V. H. Schalch in the Bill, as amended by the former committee and submitted with their report of the 5th August 1872, have the honor to report that we have considered the said proposed amendments; that we have adopted some of them as proposed; and that we have introduced some others with certain alterations.

We have provided for the payment of a portion of the expenses by a first or second class municipality which is benefited by the work executed.

We have preserved the system, which has existed for many years, for recovering the cost of maintaining the Gunduk embankments in the Sarun district.

We have provided for the assignment to a certain estate or tenure of lakhiraj lands which are not included within the local limits of any estate or tenure.

We have given power to the Magistrate to remove an embankment or obstruction illegally constructed, if the person who constructed it fails to remove it within a fixed time.

We have provided for the extension by Government of the Hooghly and Burdwan Drainage Act to any scheme proposed for similar objects of which the Lieutenant-Governor may approve.

We have confined our attention to the amendments which were laid before the Council by the Hon'ble V. H. Schalch, and report upon them alone.

AMENDED BILL.

A Bill to Amend the law relating to Embankments and Water-courses.

WHEREAS it is expedient that provision should be made for the better construction, maintenance, and management of embankments and water-courses in the territories subject to the Lieutenant-Governor of Bengal; It is enacted as follows:—

PART I.

Preliminary.

1. This Act may be called "The Bengal Embankment Act, 1873."

It extends to the whole of the territories subject to the Lieutenant-Governor of Bengal, except the province of Orissa and the Soonderbuns as defined under the provisions of Clause 2, Section 13, Regulation III of 1828.

And it shall come into force on the day of the passing thereof.

Repeal of former Acts.

2. From such day Act No. XXXII of 1855 (*relating to embankments*) and Bengal Act No. VII of 1866 (*to make better provision for the acquisition of land for embankments and other matters relating thereto*) shall, except so far as relates to the province of Orissa and the said Soonderbuns, be repealed.

Interpretation.

3. The following words shall, for the purposes of this Act, have the meanings hereby declared, save where, from the context, a contrary intention appears:—

"Estate." "Estate" means—(1) Any land or share in land subject to the payment to Government of an annual sum, in respect of which the name of a proprietor is entered on the register, known as the general register of all revenue-paying estates, or in respect of which a separate account may, in pursuance of Section 10 or Section 11 of Act XI of 1859, have been opened;

(2) Any land entered in the register of revenue-free tenures;

(3) Any land acquired under any rules issued by or under authority of Government for the sale, grant, or clearance of waste lands.

"Embankment." "Embankment" includes every bank, dam, wall, and dyke, made or used for excluding water from, or for retaining water upon, any land, and every sluice, spur, groyne, training wall, or other work annexed to or portion of any such embankment, and every bank, dam, dyke, wall, groyne or spur made or erected for the protection of any such embankment or of any land from erosion or overflow by or of rivers, tides, waves, or waters.

"Watercourse." "Watercourse" includes a line of drainage, weir, culvert, pipe, or other channel for the passage of water, whether natural or artificial.

"Zemindar." "Zemindar" means all or any of the holders of an estate; and where two or more zemindars are jointly holders thereof, they shall be jointly and severally liable under this Act.

"Tenure." "Tenure" includes all interests in land other than estates as above defined, held permanently at a fixed rental or held lakhiraj.

"Proprietor." "Proprietor" means the holder of a tenure.

"Public Embankment." "Public Embankment" means an embankment maintained by the officers of Government.

"Public watercourse." "Public watercourse" means any watercourse under the charge of the officers of Government.

"The Engineer." "The Engineer" means the Superintending Engineer of the Circle in which any embankment is situate.

"Collector." "Collector" means any Collector, Deputy Collector, or other Revenue Officer in independent charge of any district or portion of a district, or specially appointed by the Lieutenant-Governor of Bengal to perform the functions of a Collector under this Act.

"District." "District" means the portion of territory throughout which any person vested with the powers of a Collector is authorized to exercise such powers.

"Land." "Land" includes interests in land and benefits arising out of land and things attached to the earth or permanently fastened to anything attached to the earth.

PART II.

Powers of Engineers.

Power to take charge of embankments.

4. The Engineer may cause any embankment which connects public embankments, or forms, by junction with them, part of a line of embankments, or any embankment or water-course which is necessary for the protection or drainage of the neighbouring country, to be taken charge of and kept up by the officers of Government.

Power to remove embankments and obstructions.

5. The Engineer may cause to be removed or altered any permanent or temporary embankment which endangers the stability of a public embankment or any obstruction of any kind which interferes with the general drainage of any tract of land.

Power to change line of embankment.

6. The Engineer may, when necessary, change the line of or lengthen any public embankment; or make a new embankment in the place of or renew any public embankment; or make an embankment in any place in which he may deem such embankment required for the protection of any lands, or for the improvement of any watercourse; or make a sluice in any public embankment.

Power to improve drainage.

7. The Engineer may construct any sluice or watercourse, or effect any alteration in any public watercourse, when such construction or alteration may be required for the improvement of the health or for the protection of any village or cultivable land.

Applications for sluices to be made to Engineer.

8. If any landholder, farmer, or cultivator, be desirous of having a sluice made in any public embankment for the purpose of drainage or irrigation, he shall make an application in writing to the Engineer of the district in which such embankment is situate. The application shall contain such particulars of the land to be drained or irrigated as may enable the Engineer to judge of the advantage which may be derived from the work.*

Power to alter roads and construct watercourses.

9. The Engineer may call upon the person in charge of any road which interferes with the drainage of any tract of land to alter such road, or to construct any watercourse under or through such road. In the event of such person failing to comply with such requisition in such manner and within such time as the Engineer shall prescribe, the said Engineer may forthwith cause the said road to be altered, or the said watercourse to be constructed. The expenses of such alteration or construction shall be borne by the person in charge of the said road.

Proceedings to obtain new embankment or drainage.

10. Whenever any person is desirous that any new embankment be erected, or that any new watercourse be made, or that any watercourse be obstructed or diverted, if such embankment or watercourse is likely to interfere with, counteract, or impede, any public embankment or any public watercourse, he shall apply to the Engineer, and at the time of making such application shall deposit with him a statement of the proposed works.

Power to make repairs.

11. The Engineer may make any repairs in, and may do all acts necessary and proper for the maintenance of any public embankment, public watercourse, or other work executed or taken charge of under the provisions of this Act, or of any of the Acts repealed by this Act.

Power to alter railroads and construct watercourses.

12. The Engineer may call upon the manager or other person in charge of any railroad which interferes with the drainage of any tract of land to alter such railroad or to construct any watercourse, under or through such railroad. In the event of such person failing to comply with such requisition in such manner and within such time as the Engineer shall prescribe, the said Engineer may thereupon, with the previous sanction of the Lieutenant-Governor, cause the said railroad to be altered, or the said watercourse to be constructed in such manner as the Lieutenant-Governor shall direct. The expenses of such alteration or construction shall be borne by the said manager or other person in charge of the said railroad.

Power to make temporary embankment and dams.

13. Whenever any person is desirous that a temporary watercourse should be made through, or that a temporary roadway should be made over, any public embankment, or that a temporary dam should be constructed in any embanked river, or public watercourse, he shall apply to the Executive Engineer of the district, who shall communicate the application to the Engineer, and the Engineer shall pass such orders thereon as he shall think fit. If the proposed work is to be executed by an officer of Government, the applicant, before the commencement of the work, shall deposit the amount estimated by the said Engineer to be necessary to defray the expenses of and incident to making such roadway, or of and incident to making and closing or removing such watercourse or dam. If such amount is found insufficient, the said Engineer shall recover the further amount required; and if it exceeds the said amount, such excess shall be returned to the person depositing the same.

Power to remove houses.

14. Whenever the Engineer shall be of opinion that the removal of any trees, houses, huts, or other buildings situated between a public embankment and the river is necessary, he shall make a report to that effect, accompanied by a detailed statement of the trees, houses, huts, or other buildings to be removed, to the Collector of the district in whose jurisdiction the land on which such trees, houses, huts, or other buildings stand, is situated, and the Collector shall report the same to the Lieutenant-Governor in order that proceedings may be taken, under the provisions of "The Land Acquisition Act, 1870," for obtaining possession of such trees, houses, huts, and buildings. Provided always that in case the Engineer be of opinion that the delay required by such proceedings is likely to be attended with grave and imminent danger to life or property, it shall be lawful for him forthwith to cause such trees, houses, huts, or buildings to be removed, and in such case the compensation due therefor shall be ascertained and paid in the manner hereinafter provided.

Sluices to be opened under authority of the Engineer.

15. Sluices constructed in any public embankment shall be opened or shut only by or with the general or special permission of the officer in the immediate charge of the embankment, under such orders, either general or special, as he may receive from the Engineer.

Power to appropriate land or earth.

16. In any case where an embanked towpath has heretofore been maintained by Government alongside any canal, river, khal, or channel, the Engineer shall be entitled to appropriate without payment, as heretofore, land or earth for the maintenance, repair or re-construction of such embanked towpath. If in any case the Engineer shall consider it necessary for the purposes of towing to enlarge an existing towpath, or to construct a new towpath, proceedings shall be taken in accordance with the subsequent provisions of this Act relating thereto.

Power to enter and survey land, &c.

17. It shall be lawful for the Engineer, or any person whom he may authorize in that behalf, in order to carry out any of the purposes of this Act,—

to enter upon, and survey, and take levels of any land;

to dig or bore into the sub-soil;

to do all other acts necessary to ascertain whether the land is adapted to the purpose projected by such Engineer;

Power to mark out line.

to set out the boundaries of the land proposed to be taken, and the intended line of the work proposed to be made thereon;

to mark such levels, boundaries, and line, by placing marks and cutting trenches;

Power to clear land.

and, where otherwise the survey cannot be completed or the levels taken, to cut down and clear away any part of any standing crop, fence, or jungle:

Previous notice of entry.

Provided that no person shall enter into any building or upon any enclosed court or garden attached to a dwelling-house (unless with the consent of the occupier thereof) without previously giving such occupier at least seven days' notice in writing of his intention to do so.

Payment for damage.

The officer so authorized shall at the time of such entry pay or tender payment for all necessary damage to be done as aforesaid; and, in case of dispute as to the sufficiency of the amount so paid or tendered, he shall at once refer the dispute to the decision of the Collector, and such decision shall be final.

PART III.

Reference to the Collector and procedure thereon.

Notice to the Collector.

18. Save as is by this Act otherwise provided, the Engineer, before causing any of the works mentioned in Sections 5 to 10 both inclusive, or any of them, to be executed, shall prepare and submit to the Collector of the district plans, specifications, and estimates of the proposed works, together with a map showing the boundaries of the various estates likely to be affected by the said works, and a notice in writing of his intention to execute such works, and shall not commence any of such works until final order made in respect thereto. Such notice shall be in the form and state the particulars mentioned in Schedule (A) to this Act annexed. Upon the receipt of such notice the Collector shall cause a proclamation to be issued, which shall be in the form and state the particulars mentioned in Schedule (B). The Collector shall append to such proclamation a list of the estates, villages, and municipalities, mentioned in the said notice, and such others as he may consider likely to be affected by the works proposed.

Publication of proclamation.

19. Every such proclamation shall be published by affixing the same at the cutcherry of the Collector, and in the manner provided in the third clause of Section 63.

Proclamation to be published for thirty days.

20. Every such proclamation shall be published and served not less than thirty days before the day appointed for hearing the persons interested.

Powers on inquiry and appeal.

21. In any enquiry or appeal held under this Act, the Collector and the Commissioner shall respectively have the powers conferred on Courts by the Code of Civil Procedure for compelling the attendance of and for examining witnesses, and for the production of documents.

Hearing of objections to work.

22. The Collector shall, on the day appointed for the hearing, or on any subsequent day to which the hearing shall be adjourned, hear the objections of any persons who may appear, and, after recording any evidence which they may adduce, shall communicate the objections that may be made, together with his opinion thereon and on the proposed works, to the Engineer, who shall return the same with his opinion to the Collector. If the Engineer agree in opinion with the Collector, the Collector shall pass an order accordingly in regard to the execution of the aforesaid works, and notice of such order shall be served on the persons appearing in pursuance of the proclamation. If he differ from the Collector, the case shall be referred to the Commissioner of Revenue, who shall pass such orders thereon as he may deem fit.

PART IV.

Procedure in cases of imminent danger to life or property.

Proceedings in emergencies.

23. Whenever the Engineer shall be of opinion that the proceedings commenced by notice under Part III of this Act would cause delay in the exercise of any of the powers by Sections 5, 6, and 7 conferred upon him, likely to be attended with grave and imminent danger to life or property, he may forthwith commence to exercise such powers without reference to the Collector. Provided that he shall forthwith inform the Collector thereof and of the nature of the danger, and give notice of his intention to continue to exercise such powers. The Collector, in any case where he shall see fit, may direct the Engineer to suspend further action until after the completion of such proceedings and enquiries. The Engineer, as soon as he conveniently may, after giving such notice of his intention, shall give notice in writing to the Collector, together with plans, specifications, estimates, and maps, as provided in Section 18, appending thereto a statement that the work mentioned therein has already been commenced, and thereupon such proceedings and enquiries shall be had as in and by Part III of this Act are directed.

Notice to the Collector.

Power to take possession of land.

24. Whenever any land, or earth from any land the property of any person, is required for the purposes of any works commenced in pursuance of the provisions of the last preceding section, or for the purposes of Section 11 in cases where the Engineer shall be of opinion that proceedings for the acquisition of such land, according to the provisions contained in Section 28, would cause delay as aforesaid, the Engineer shall cause public notice in form in Schedule (C) to be given at convenient places in the locality in which such land is situated, and he may at the same time take possession of the same for the said purposes. Provided that he shall, so soon thereafter as he conveniently may, give notice thereof to the Collector.

25. The Engineer shall ascertain and record the nature and estimated value of the crops and trees (if any) standing on such land, and shall offer adequate compensation to the persons interested. If such offer is not accepted, he shall forward the record with a report to the Collector, and the value of such crops and trees shall be allowed for in awarding compensation for the land under the provisions of Section 32.

Compensation for standing crops and trees.

26. Whenever the Engineer may be absent, the Executive Engineer of the district may, in case he shall be of opinion that delay for the purpose of obtaining the orders of the Engineer would be attended with grave and imminent danger to life or property, exercise the powers in and by the three last preceding sections conferred on the Engineer.

Power to Executive Engineer to act for Engineer.

27. Whenever, upon an enquiry had under the provisions of this Part, it has been determined in the final and conclusive order to be passed on such enquiry that anything done by the Engineer was unnecessary, the land or the embankments or drainage shall, so far as any alteration thereof shall appear to be unnecessary, be at the expense of the Government restored as nearly as possible to the state in which they were when the Engineer commenced to act under the provisions of this Part; and any person who shall have sustained loss, damage, or injury by the execution of such works, shall receive compensation from the Government to be assessed and imposed according to the provisions contained in Part V of this Act.

Power to restore embankments, &c.

PART V.

Acquisition of lands.

28. Whenever in the course of proceedings under this Act, save in those cases in which the Engineer has proceeded under the provisions of Part IV, it appears that land is required for any of the purposes thereof, such purpose shall be deemed to be a public purpose within the meaning of The Land Acquisition Act, 1870, and such proceedings shall be forthwith taken as are directed by the said Act or by any other law for the time being governing the acquisition of lands for public purposes.

Acquisition of land.

29. Whenever any land shall have been taken or used under the provisions of Part IV, the Collector shall, unless he shall direct the Engineer to suspend further action, cause public notice in form in Schedule (D) to be given at convenient places on or near the land so taken, stating that Government has taken possession of the land, and that claims to compensation for all interests in such land shall be made to him. Thereupon the land shall vest absolutely in the Government free from all incumbrances, subject, however, to the claims for compensation to be ascertained in manner as in this Part is provided.

When land taken, notice to be published.

30. Such notice shall state the particulars of the land so taken, and shall require all persons interested in the land to appear personally or by agent before the Collector at a time and place therein mentioned (such time not being earlier than fifteen days, after the date of publication of the notice), and to state the nature of their respective interests in the land, and the amount and particulars of their claims to compensation for such interest.

Contents of notice.

31. The Collector shall also serve notice to the same effect on the occupier (if any) of such land, and on all such persons known or believed to be interested therein, or to be entitled to act for persons so interested, as reside, or have agents authorized to receive service on their behalf, within the revenue district in which the land is situate.

Further notice to be served on certain parties.

32. After service of such notices proceedings shall be had and taken to determine the amount of compensation to be payable in respect of such land, and all the provisions contained in Sections 10 to 15, 18 to 34, 36, 37, 38, 42, 51, 55, 58 (as amended by Act IX of 1871), and 59 of the Land Acquisition Act, 1870, shall be applicable to such proceedings.

Proceedings after notice.

33. Whenever any land other than land required or taken by the Engineer, or any right of fishery, right of drainage, right of the use of water, or other right or property, shall have been injuriously affected by the due exercise of the powers or provisions of this Act, the person in whom such right is vested may prefer a claim by petition to the Collector for compensation.

Compensation for consequential damage.

34. No claim shall be entertained which shall be made later than one year next after the completion of the work by which such right is injuriously affected.

Application to be made within a year.

35. Subject to the provisions of the next preceding section, the Collector shall proceed to enquire into each claim made, and to determine the amount of compensation, if any, which should be made, and the person to whom the same should be payable, and the Collector, on the receipt of such claim, shall fix a time and place for hearing such claim, and Sections 9 to 15, 18 to 23, 26 to 34, 36, 37, 38, 51, 54, 55, 58 (as amended by Act IX of 1871), and 59 of the said Land Acquisition Act, 1870, shall apply to enquiries into such rights as aforesaid, or the exercise of such rights as aforesaid, and to the awards of compensation for injuries to such rights as though they were rights in and awards of compensation for land needed for a public purpose.

Procedure for such compensation.

36. In determining the amount of compensation to be awarded in such cases, the Judge and Assessors shall take into consideration—

First, the market value of the property injuriously affected at the time of acquiring the land;

Secondly, the damage sustained by the claimant by reason of such acquisition injuriously affecting the property;

Thirdly, the consequent diminution of the market value of the property injuriously affected at the time of acquiring the land.

But the Judge or Assessors shall not take into consideration—

PART VI.

COST OF WORKS, PROCEEDINGS, &c.

1. *Ascertainment thereof.*

Embankments in schedule E.

41. The provisions in this Part contained shall not apply to any of the embankments mentioned in Schedule *(E)* to this Act annexed, save so far as any works or repairs are executed therein or in relation thereto under the provisions of Sections 10 and 13 of this Act respectively. All sums payable in respect of any works or repairs executed therein or in relation thereto, except under the provisions of the said sections respectively, shall be paid by the local Government. If at any time after the passing of this Act the Collector, on enquiry made by him as far as possible in accordance with the provisions of Part III of this Act, shall find that it is unnecessary for the public interests to retain any embankment mentioned in Schedule (E), the Lieutenant-Governor may direct that the same shall be no longer included in the said schedule. Provided that the same shall be restored to the said schedule if on any subsequent enquiry similarly conducted it shall be found necessary so to do.

Alteration of schedule.

Estimate and specifications to be prepared.

42. Specifications of any works or repairs to be executed under the provisions of this Act, and estimates of the expenses to be incurred therein or relating thereto, including such proportion of establishment charges as the Lieutenant-Governor shall direct, shall be prepared by the Engineer as soon after the month of October in each year as may be practicable. And whenever it appears that the actual expenses to be incurred will exceed the amount mentioned in the said estimates by one-tenth, the Engineer shall forthwith prepare further estimates, and, if necessary, further specifications. Copies of all specifications and estimates shall be transmitted to the office of the Collector, together with vernacular translations thereof, or such abstracts thereof as the Lieutenant-Governor may from time to time direct, and may be examined by any person interested in such works or repairs. Notice of the receipt of specifications and estimates shall be served for all estates chargeable for or likely to be affected by the said works or repairs; and should any objection in regard to the amount of such expenses be preferred by any such person within a period of one month from the date of such notice, the Collector shall communicate the objection, with his own opinion thereupon, to the Engineer, who shall pass such orders as may appear to him reasonable and proper. Such order shall be subject in any case to an appeal by the person making such objection; and to a reference by the Collector, to the Commissioner whose decision shall be final.

Preparation and settlement of accounts.

43. The accounts of the actual expense incurred in executing any works or repairs shall be prepared as soon as possible after the completion thereof. The Engineer shall sign a certificate stating the true amount of all such expenses and the names of the estates chargeable for and of the estates and villages affected by the said works and repairs. Copies of the said accounts and certificates shall be forwarded to the office of the Collector, and may be there examined by any person interested. Notice of the receipt thereof shall be served for the said estates and villages and such others as in the opinion of the Collector are liable to contribute to the payment of the said amount; and if, within thirty days from the service of such notice, any interested person shall object to the accounts on the ground either that the work charged for has not been performed, or that the whole sum charged has not been expended, or that the rates of charge are higher than those mentioned in the estimates, the Collector shall enquire into such objection, and may pass any order thereon subject in any case to an appeal by the objector or to a reference

by the Engineer to the Commissioner of division whose decision shall be final.

Total sum payable.

44. The Collector shall add to the amount appearing in the said certificate all sums which have been paid or have become payable in respect of compensation, costs and expenses under and incidental to any proceedings taken or directed to be taken under Parts III and V of this Act, including costs of all surveys and plans. He shall thereupon make an order specifying the total sum found payable, and in respect of works done under Sections 9, 12, and 13, the persons by whom, or in respect of other works the estates in respect of which, the same is payable to him. Provided that the Collector may, if he thinks fit, order that a portion of the total sum payable shall be paid by any municipality of the first or second class which is in his opinion benefited or protected by the works or repairs executed. If the order is made in respect of work done under Sections 9, 12, or 13, the same shall forthwith be served upon the party or parties liable to pay; otherwise the Collector shall proceed under the provisions in the next chapter contained. Interest may be charged upon any sum paid as compensation from the date of payment thereof at such rate, not exceeding 5 per cent. per annum, as the Lieutenant-Governor may direct.

Parties liable to pay.

45. The said total sum, save so far as is otherwise provided in this Act, shall be paid to the Collector by the zemindars of the estates in which are situated the lands benefited or protected by the repairs or works executed. Provided that where any specific sum has hitherto been annually demanded in respect of any embankment not included in Schedule E, and when the said embankment is at the time of this Act coming into operation being maintained by Government, then such special payments shall, after the passing of this Act, thenceforth cease and determine.

Every zemindar, who is liable under this rule for the payment of the whole or a portion of such total sum, shall be entitled to recover from the proprietor of every tenure which is declared to be a part of his estate, the sum apportioned to such tenure by the Collector, under the provisions of Section 50. And similarly, every proprietor shall be entitled to recover from the proprietor of any subordinate tenure, which is declared to be a part of his tenure, the sum apportioned to such subordinate tenure by the Collector, under the said provisions.

---

2. *Apportionment thereof.*

Notice to be given before apportionment.

46. So soon as the total sum payable as aforesaid has been ascertained, the Collector shall cause a notice to be served for every one of the said estates and villages mentioned in Section 43. Every such notice shall specify the estates and villages aforesaid, and that an enquiry will be held at a day and place therein named for the purpose of apportioning amongst the zemindars and proprietors the said total sum, with interest and the costs of apportionment.

Whenever it has been ordered by the Collector that a municipality is liable for a portion of the said total sum, the notice shall contain a statement to that effect, and shall be served on the Chairman of the municipality.

Mode of enquiry as to the proportion chargeable to each estate.

47. On the day fixed in the said notice, which shall not be less than thirty days later than the date of any service of such notice, the Collector shall proceed to make the said enquiry. In making this enquiry he shall receive such evidence as may be tendered by, or on behalf of, the said zemindars and proprietors, and by, or on behalf of, any other persons who may claim to be interested therein.

Names of proprietors.

48. In any such enquiry the Collector shall take down in writing the names of all persons who may claim, or who may be alleged by any party interested, to be proprietors of tenures within any of the estates mentioned in such notice. In default of appearance of any such person, the Collector shall issue and serve a notice calling on him to appear at a date and place therein mentioned, and to show cause against being included in the order of apportionment to be made therein, and shall adjourn the enquiry till such date.

Apportionment amongst zemindars.

49. At such or any subsequently adjourned enquiry, the Collector, if there be only one estate liable, shall charge the zemindar thereof with the total amount payable; and if there be two or more estates, he shall apportion the same amongst the zemindars thereof, rateably in the proportion of the respective benefits derived by such estates from such works or repairs; or in proportion of the areas of the lands benefited or protected thereby, and comprised within such estates respectively; or with the sanction of the local Government in proportion to the amount of revenue respectively payable for such estates, if, before the passing of this Act such proportion has been usually adopted.

Provided that the said total amount payable in respect of the embankments on the right bank of the river Gunduk shall be chargeable, in accordance with the custom in force for such estates, to the zemindars of all the estates situated in the district of Sarun, in proportion to the amount of revenue respectively payable for such estates.

Amongst proprietors.

50. The Collector shall, in like manner, apportion, except in respect of the said Gunduk embankments, the amount payable in respect of each estate amongst all the tenures therein, rateably in the proportion of benefit so received or area so benefited or protected, first deducting therefrom such sum as on the like principle of proportion is payable in respect of such portion of the estate as is not included within any tenure.

51. The Collector shall likewise determine the amount payable in respect of any municipality rateably in proportion to the benefit derived by it from the work or repair executed, and the remaining sum shall be apportioned as directed in the two last preceding sections. Provided that no rate-payer in such municipality shall be required to pay any portion of such remaining sum in respect of any tenure which is situated within the limits of such municipality.

52. All lands held without payment of rent, not being estates entered in the register of revenue-free tenures, shall, for the purposes of this Act, be deemed to form a part of the tenure within the local boundaries of which they are included; and, if they are not included within the local boundaries of any tenure, then to be a part of the estate within the local boundaries of which they are included; and, if they are not included within the local boundaries of any estate, then to be a part of such conterminous estate as the Collector, in whose district such conterminous estate is situated, shall, by an order under his seal and signature, declare.

Payable by instalments.

53. The amount apportioned to any estate, tenure, or municipality shall be payable in equal instalments on such days as the Lieutenant-Governor shall direct, provided that no instalment shall exceed four annas for every acre of land in respect of which the same is payable, and that not more than four instalments shall be payable in any one year. And provided also in the case of a municipality that the instalment payable in any one year shall not exceed ten rupees per centum of the total income of such municipality during the year last preceding.

Interest.

Interest shall be charged on the unpaid portion of the said amount from the date of the same becoming due until payment thereof at such rate, not exceeding five per cent. per annum, as the Lieutenant-Governor shall from time to time determine.

Final order of apportionment.

54. On the completion of the apportionment the Collector shall make an order specifying the estates and tenures, and the several sums payable in respect thereof, the instalments of such sums and the dates on which the same are payable.

3. *Recovery thereof.*

Orders for payment.

55. The Collector shall, within thirty days from the final order of apportionment, make and serve for every estate therein mentioned an order, stating the amount with interest due in respect thereof and that the same is payable to him, and the date or dates at which such amount or instalments thereof shall become payable to him.

Recovery from zemindars.

56. If such sum or any instalment thereof be not, pursuant to the said order, paid, the same with interest shall be recoverable as arrears of a demand under the provisions of Bengal Act VII of 1868 (*to make further provision for the recovery of arrears of land revenue and public demands recoverable as arrears of land revenue*).

From proprietors.

57. Every zemindar or proprietor to whom any sum or instalment thereof is payable under the said order, may recover the same with interest as aforesaid in the manner provided for the recovery of arrears of rent in respect of putnee tenures by the provisions of clauses 2 and 3 of Section 8, Sections 9, 10, 14, 15, and clauses 1, 2, and 3 of Section 17, of Regulation VIII of 1819, as amended by Bengal Act VIII of 1865; provided that the right or interest of any person holding from the proprietor of such tenure shall not be affected by any sale held under these provisions. A copy of the said order, certified under the name and seal of the Collector, shall be received in any suit for the recovery of the same as conclusive evidence that the amount was apportioned as therein mentioned, but shall not be evidence as to the existence of, or as to any right in the tenure to which the said amount has been apportioned.

It shall be lawful for the Commissioners of any municipality to pay to the Collector, on the dates fixed by the order passed under Section 54, the sum which is declared in such order to be payable in respect of such municipality; and for the purpose of realizing the amount so disbursed to increase the rate of any tax leviable therein.

The Bill does not apply to proceedings before Courts-Martial, or to oaths prescribed by laws which the Governor General in Council has not the power to repeal.

Incidentally, the Bill will remove the doubt which has been raised as to the power of the Courts in certain parts of India to administer oaths and affirmations.

LEAVE AND ALLOWANCES.

Fort William, the 10th February 1873

No. 978 —*Notification.*—The Governor-General in Council directs that the following be substituted for Sections 18 and 19 of the Civil Leave Code, and the rules under those sections :—

Section 18 —The amount of privilege leave admissible at one time is limited to three calendar months

The amount of privilege leave earned by an officer is one-eleventh of the time during which he has been on duty without interruption Provided that no privilege leave can be earned by an officer by duty done while three months' such leave are due to him.

The privilege leave due to an officer is the privilege leave which he has earned, less the period during which he has been absent on privilege leave

Absence on privilege leave, though not counting as duty, is not an interruption of duty within the meaning of this section.

[NOTE —*This rule applies to Commissioned Military Officers in Civil employ*]

1. To Uncovenanted Judicial and Educational Officer whose duties are not continuous, and who enjoy regular vacations during which they are allowed to be absent from duty privilege leave is not admissible except in case of urgent necessity.
2. The local Government may, with the sanction of the Government of India, impose a similar restriction in the case of Covenanted Officers.
3. Time spent on subsidiary leave does not qualify for privilege leave. But if an officer returning from leave not before the expiration thereof, be, solely for the convenience of the local Government, and not for any fault of his own, prevented from joining an appointment on which he has a lien; or if he be kept out of employ on subsistence allowance, then duty qualifying for privilege leave begins on the day on which he presents himself to the local Government ready for duty.
4. When an officer is first appointed to the public service, duty qualifying for privilege leave does not begin until he takes charge of a particular office.
5. "Examination leave" may, if the examination for which it was granted be successfully passed, count as duty qualifying for privilege leave, unless the officer has already had twelve months' such leave.
6. Suspension from office as a penalty for misconduct is an interruption of duty within the meaning of this section.

[NOTE.—*This rule applies to Commissioned Military Officers in Civil employ*]

7. If an officer remains absent after the end of examination leave or of joining time, the period of absence cannot count as duty qualifying for privilege leave, and unless the absence is accounted for to the satisfaction of the local Government, it is an interruption of duty within the meaning of this section

[NOTE.—*This rule applies to Commissioned Military Officers in Civil employ.*]

8. With regard to the privilege leave of Commissioned Military Officers in civil employ, no distinction is made between officers who have substantive civil appointments and those who are merely officiating in the Civil Department The leave is earned by uninterrupted duty in either the Civil or the Military Department.

Section 19.—To an officer who has been on duty without interruption for eleven calendar months, and who has not for six calendar months been absent on privilege leave, the whole or any part of the privilege leave due to him may be granted.

[NOTE.—*This rule applies to Commissioned Military Officers in Civil employ*]

1. Before privilege leave is granted to an officer, he must record a declaration that he has no intention of retiring or of taking furlough, special leave, or leave on private affairs, or medical certificate, within three months of his return to duty Though not absolutely debarred by this declaration from applying to retire or for such leave within the three months, he should, if he does so, explain fully his change of mind.

[NOTE.—*This rule applies to Commissioned Military Officers in Civil employ*]

2. If an officer is, on public grounds, recalled to duty from privilege leave before the whole leave granted to him is ended privilege leave may be granted to him again, even within six calendar months from the date of his return to duty

[NOTE —*This rules applies to Commissioned Military Officers in Civil employ.*]

To His Excellency the Right Hon'ble the Governor-General of India in Council.

MY LORD,

I transmit herewith, for the information of your Excellency's Government, in continuation of the documents forwarded with my despatches in this Department, No. 100 of the 10th August 1871, and No. 67 of the 31st July 1872, four printed copies of the new Commercial Tariff of Netherlands India, which come into operation on the 1st of January 1874.

No. 39.

THE HAGUE,
28*th November* 1872.

MY LORD,

I have the honor to transmit herewith a translation of the new Indian Tariff, which was passed through both Chambers of the States-General, and awaits the Royal assent.

It will come into operation on the 1st of January 1874, and its importance to British industry and commerce will at once be felt, since, besides abolishing differential duties, it establishes a general reduction in the scale of imports.

Thus, British manufactures of silk, cotton, linen, ribbons, &c., which now pay a duty of 20 per cent. *ad valorem*, will, from the date of January 1, 1874, only pay 6 per cent.; and advantages will be obtained in the same directions as regards our other exports.

Amended Bill for Ratifying the Tariffs of Import, Export and Transit Duties in Netherlands India.

(TRANSLATION.)

WE, William III., &c., &c., &c. To all whom these presents shall concern, send greeting:

Having taken into consideration that the Act of July 3, 1865 (Staatsblad No. 76) by virtue of the Act of July 24, 1871 (Staatsblad No. 89) remains in operation till January 1 1873, and that it is therefore necessary further to ratify by law the tariffs of import, export and transit duties in Netherlands India.

We, after having consulted our Council of State, and with the concurrence of the States-General, have approved and resolved as follows:—

Art. 1. All merchandize to Java and Madeira; to West Coast of Sumatra; to the Assistant Residency of Bencoolen; to the Residency of the Lampong districts; to the Residency of Palembang; to the Residency, Banka and Dependencies; to the Assistant Residency of Billiton; and to the Residency, South and East Division of Borneo, imported for use or consumption, and not expressly stated as free of duty, are liable to an import duty according to this Tariff:—

* In case of the strength being greater or less, the quantity is reduced to the alcoholic standard of 50 per cent. The directions, the instruments, and the tables for estimating the strength and making the required calculations are appointed by the Governor-General. The calculation, however, for liquors and other similar spirits prepared or mixed with substances which prevent the regular estimate of the strength merely by hygrometers and thermometers, shall always be made with reference to a standard of 75 per cent., unless the officials suspect that fluids or liquids declared as such spirits contain a higher proportion of alcohol than 75 per cent. In that case they are empowered to require the examination of the actual strength, and the calculation shall be made in accordance with the greater strength thus discovered.

For varnish and all other liquids prepared with alcohol, not being liquors, as well as for pyroxilic spirit and all other liquids prepared from it or mixed with it, the estimate shall be made on the calculation of a strength of 100 per cent.

The Governor-General may, however, with the precautions necessary, grant freedom from import duty—

1. For pyroxilic spirit.

2. For ordinary spirits:

(*a.*) Which in the Netherlands, in accordance with the regulations there in force relating to freedom from Excise, are mixed with pyroxilic spirit;

(*b.*) Which in Netherlands India, in accordance with the regulations given to that intent under the inspection of officials, shall, by the addition of pyroxilic spirit, be rendered unsuitable for ordinary use.

(*c*). For making vinegar.

Æther sulphuricus, chloroform, and other like articles or liquids prepared with alcohol, are liable to double the duty of varnish and other such like liquids.

Spirits imported at other places than those specially appointed for that purpose by the Governor-General are liable to the same duty as varnish and other such like liquids.

The Governor-General shall give directions as to what additional sum shall be paid besides the import duty on spirits, which are found to have been imported in quantity exceeding the maximum by him to be appointed.
